LIST OF PUBLISHED MATERIAL  
RELATING TO HOME BUILDING AND MAINTENANCE

This list is intended to be of assistance to home owners, home builders, and others interested in materials, equipment, and practices employed in the construction of dwellings and in the maintenance and modernization of home properties. It includes publications issued by the Federal Government and by national trade associations and other organizations in which materials, equipment, and recommended methods of applying or installing them are described. The National Bureau of Standards, however, cannot assume responsibility for statements made in outside publications by others than members of the Bureau staff.

In addition to the sources mentioned in the list, many universities and colleges, through their engineering and experiment stations, agricultural extension divisions, and other departments, publish pamphlets of interest to home owners. A list of these institutions by States is given on page 32 of this pamphlet.

The Federal Government publications, where prices are shown, may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C. The prices quoted are for delivery to addresses in the United States and its territories and possessions, and in certain foreign countries which extend the franking privilege. For all other countries one-third the cost of the publication should be added to cover postage. Prepayment is required and should be made either by coupons obtainable from the Superintendent of Documents in sets of 20 for \$1.00 and good until used or by check or money order payable to the Superintendent of Documents, Government Printing Office, Washington, D. C. Do not remit in postage stamps. Any publication listed as "free" may be obtained without charge from the Department issuing it.

The publications of the National Bureau of Standards have been issued in several series, indicated on this list by their initials:

- BH - Building and Housing
- BMS - Building Materials and Structures
- C - Circular
- CS - Commercial Standard
- H - Handbook
- LC - Letter Circular
- M - Miscellaneous
- R - Simplified Practice Recommendation
- RP - Research Paper
- T - Technologic Paper
- TIEM - Technical Information on Building Materials

Publications prepared by the trade associations and other organizations listed herein may be procured by writing to them at the addresses given.
