PROMULGATION

of

COMMERCIAL STANDARD CS121-45

for

WOMEN'S SLIP SIZES

(WOVEN FABRICS)

On June 29, 1944, at the instance of the Office of Price Administration, a recommended commercial standard for women's slips (made from woven fabrics), developed and adjusted through several conferences and through consultation and correspondence with industry and the trade, was circulated to producers, distributors, and users for written acceptance. Those concerned have subsequently accepted and approved the standard as shown herein, for promulgation by the U. S. Department of Commerce, through the National Bureau of Standards.

The standard is effective for new production from April 20, 1945.

Promulgation recommended.

I. J. Fairchild,
Chief, Division of Trade Standards.

Promulgated.

Lyman J. Briggs,
Director, National Bureau of Standards.

Promulgation approved.

Henry A. Wallace,
Secretary of Commerce.
WOMEN'S SLIP SIZES
(WOVEN FABRICS)
COMMERCIAL STANDARD CS121-45

PURPOSE

1. The purpose of this commercial standard is to establish standard methods of measuring and standard minimum measurements for the guidance of producers, distributors, and users of women's slips in order to eliminate confusion resulting from a diversity of measurements and methods, and to provide a uniform basis for guaranteeing full size.

SCOPE

2. This standard covers standard methods of measuring and standard minimum measurements for women’s built-up shoulder, and strap-type, straight and bias cut slips, made from woven fabrics, in sizes from 32 to 54.

APPLICATION

3. The methods and measurements given herein are applicable to finished garments as delivered by the manufacturer.

GENERAL REQUIREMENTS

4. Method of measuring.—The garment to be measured is laid out without tension on a smooth flat surface so that creases and wrinkles will not affect the measurements. A steel tape is recommended for use in making the measurements.

5. Accuracy.—Measurements are taken to the nearest one-fourth of an inch.

6. Short lengths.—Slips designated as “shorts” may be 2 inches less than standard lengths, but they shall be labeled as “shorts” and carry a size designation of one-half number less than regular size, such as 31½, 33½, and the like.
STANDARD METHODS OF MEASURING
WOMEN'S SLIPS
(Built-up shoulder and strap type)

7. **Bust.**—Measured across garment at the lower edge of armholes, twice B, figures 1 and 2.

8. **Total length.**

8a. **Built-up shoulder type.**—Measured from top of shoulder to bottom edge of garment, C, figure 1.

8b. **Strap type.**—Measured from top of body of garment to bottom edge of garment, D, figure 2.

9. **Armhole length.**—Measured from top of armhole to lower edge of opening, A, figure 1.

10. **Hips, around.**

10a. **Built-up shoulder type.**—Measured across the slip 23½ inches below top of shoulder for sizes 32 and 34; 24 inches for sizes 36 and 38; 24½ inches for sizes 40, 42, and 44; 26 inches for sizes 46 and 48; and 26½ inches below top of shoulder for sizes 50, 52, and 54, twice H, at X depth, figure 1.

10b. **Strap type.**—Measured across the slip 17 inches below top of body of garment for sizes 32 and 34; 17½ inches for sizes 36 and 38; 18 inches for sizes 40, 42, and 44; 18½ inches for sizes 46 and 48; and 19 inches below top of body of garment for sizes 50, 52, and 54, twice H, at Y depth, figure 2.

11. **Sweep, around.**—Measured across bottom of garment, twice Z, figures 1 and 2.

---

*Figure 1.*—Women's built-up shoulder type slip.
STANDARD MINIMUM MEASUREMENTS

12. Standard minimum measurements for women's straight-cut built-up shoulder, straight-cut strap type, bias-cut strap type, and combination straight- and bias-cut strap-type slips are shown in tables 1 to 3.

**LABELING**

13. In order to assure the consumer that she is receiving garments that comply with standard minimum measurements, it is recommended that women’s slips manufactured to conform to such standard measurements be identified by a sticker, tag, or other label attached to the garment and carrying the following statement:

The manufacturer guarantees the measurements of this garment as delivered to be in accordance with Commercial Standard CS121-45, as issued by the National Bureau of Standards, of the United States Department of Commerce.

or more briefly

Size conforms to CS121-45

**EFFECTIVE DATE**

14. The standard is effective for new production from April 20, 1945.

**STANDING COMMITTEE**

15. The following individuals comprise the membership of the standing committee, which is to review, prior to circulation for acceptance, revisions proposed to keep the standard abreast of progress. Comment concerning the standard and suggestions for revision, may be addressed to any member of the committee or to the
Division of Trade Standards, National Bureau of Standards, which acts as secretary for the committee:

Oscar Cohen (chairman), Superior Petticoat Co., Inc., 105 Madison Avenue, New York 16, N. Y.
Arthur Adelman, Continental Undergarment Co., Inc., 152 Madison Avenue, New York 17, N. Y.
Milton Herman, Louis Herman & Co., 159 Madison Avenue, New York, N. Y.
Gerald Ritter, Barbizon Corporation, 475 5th Avenue, New York, N. Y.

E. Freedman, Macy's, Herald Square, New York, N. Y.
Mrs. M. A. Ashford, Woodward & Lothrop, 11th and F Streets NW., Washington, D. C.
Mrs. Margaret Kingsbury, Purchasing Office, Department of the Interior, Washington 25, D. C.

HISTORY OF PROJECT

16. On October 19, 1942, the Office of Price Administration requested the cooperation of the National Bureau of Standards looking to the establishment of a commercial standard for women's slips (made from woven fabrics) as a part of the effort to conserve essential material and to prevent depreciation through skimp cutting. A tentative draft was developed and discussed at a preliminary conference of manufacturers on June 30, 1943, and again on September 22, 1943. The second preliminary conference approved the draft as revised and recommended that a general conference of manufacturers, distributors, and consumers be held on October 21, 1943.

17. This general conference after considering the proposed standard, requested more time to study the draft, with the result that a committee of mail order representatives and retailers subsequently submitted recommendations which were considered in conjunction with those from others concerned. The proposed commercial standard was revised in the light of these composite data and on June 29, 1944, the recommended commercial standard was circulated to producers, distributors, and consumers for written acceptance.

18. Upon receipt of acceptances estimated to represent a satisfactory majority, announcement was issued on January 20, 1945, that the standard would become effective for new production from April 20, 1945.
ACCEPTANCE OF COMMERCIAL STANDARD

If acceptance has not previously been filed, this sheet properly filled in, signed, and returned will provide for the recording of your organization as an acceptor of this commercial standard.

Date

Division of Trade Standards,
National Bureau of Standards,
Washington 25, D. C.

Gentlemen:

We believe that the Commercial Standard CS121-45 constitutes a useful standard of practice, and we individually plan to utilize it as far as practicable in the

Production 1 Distribution 1 Use 1 Testing 1

of women's slips (made from woven fabrics).

We reserve the right to depart from it as we deem advisable.

We understand, of course, that only those articles which actually comply with the standard in all respects can be identified or labeled as conforming thereto.

Signature of authorized officer

(In ink)

(Kindly typewrite or print the following lines)

Name and title of above officer

Organization

(Fill in exactly as it should be listed)

Street address

City, Zone, and State

1 Underscore which one. Please see that separate acceptances are filed for all subsidiary companies and affiliates which should be listed separately as acceptors. In the case of related interests, trade papers, etc., desiring to record their general support, the words “General Support” should be added after the signature.
TO THE ACCEPTOR

The following statements answer the usual questions arising in connection with the acceptance and its significance:

1. Enforcement.—Commercial standards are commodity specifications voluntarily established by mutual consent of those concerned. They present a common basis of understanding between the producer, distributor, and consumer and should not be confused with any plan of governmental regulation or control. The United States Department of Commerce has no regulatory power in the enforcement of their provisions, but since they represent the will of the interested groups as a whole, their provisions through usage soon become established as trade customs, and are made effective through incorporation into sales contracts by means of labels, invoices, and the like.

2. The acceptor's responsibility.—The purpose of commercial standards is to establish for specific commodities, nationally recognized grades or consumer criteria and the benefits therefrom will be measurable in direct proportion to their general recognition and actual use. Instances will occur when it may be necessary to deviate from the standard and the signing of the acceptance does not preclude such departures; however, such signature indicates an intention to follow the commercial standard where practicable, in the production, distribution, or consumption of the article in question.

3. The Department's responsibility.—The major function performed by the Department of Commerce in the voluntary establishment of commercial standards on a Nation-wide basis is fourfold: first, to act as an unbiased coordinator to bring all interested parties together for the mutually satisfactory adjustment of trade standards; second, to supply such assistance and advice as past experience with similar programs may suggest; third, to canvass and record the extent of acceptance and adherence to the standard on the part of producers, distributors, and users; and fourth, after acceptance, to publish and promulgate the standard for the information and guidance of buyers and sellers of the commodity.

4. Announcement and promulgation.—When the standard has been endorsed by a satisfactory majority of production or consumption in the absence of active, valid opposition, the success of the project is announced. If, however, in the opinion of the standing committee or the Department of Commerce, the support of any standard is inadequate, the right is reserved to withhold promulgation and publication.
ACCEP'TORS

19. The organizations listed below have individually accepted this standard for use as far as practicable in the production, distribution, testing or use of women's slips (made from woven fabrics). In accepting the standard they reserved the right to depart therefrom as they individually deem advisable. It is expected that articles which actually comply with the requirements of this standard in all respects will be regularly identified or labeled as conforming thereto, and that purchasers will require such specific evidence of conformity.
