MEN'S PAJAMA SIZES—WOVEN FABRICS

(Third Edition)

COMMERCIAL STANDARD CS15–46

Effective date for new production from July 29, 1946

A RECORDED VOLUNTARY STANDARD
OF THE TRADE
PROMULGATION

of

COMMERCIAL STANDARD CS15-46

MEN'S PAJAMA SIZES—WOVEN FABRICS

(Third Edition)

On May 3, 1929, a general conference of manufacturers, distributors, and users adopted a recommended commercial standard for men's pajamas, which was subsequently accepted by the trade and promulgated by the U. S. Department of Commerce as Commercial Standard CS15-29.

In 1943 an emergency standard requested by the Office of Price Administration was accepted and approved by those concerned and promulgated as Men's Pajamas, Commercial Standard (Emergency) CS(E)15-43.

On September 21, 1945, a revision requested by the National Association of Shirt and Pajama Manufacturers and endorsed by the standing committee was circulated to producers, distributors, and users for written acceptance. Those concerned have since accepted and approved the revised standard as shown herein for promulgation by the United States Department of Commerce, through the National Bureau of Standards.

The standard is effective for new production from July 20, 1946.

Promulgation recommended

F. W. Reynolds,
Acting Chief, Division of Trade Standards.

Promulgated

E. U. Condon,
Director, National Bureau of Standards.

Promulgation approved

Henry A. Wallace,
Secretary of Commerce.
MEN’S PAJAMA SIZES—WOVEN FABRICS
(Third Edition)

COMMERCIAL STANDARD CS15-46

PURPOSE

1. The purpose is to provide standard methods of measuring and standard minimum measurements for the guidance of producers, distributors, and users; to eliminate confusion resulting from a diversity of measurements and methods; and to provide a uniform basis for guaranteeing full size.

SCOPE

2. The standard covers size designations, methods of measuring, and standard minimum measurements for men’s pajamas, whether made from shrunk or unshrunk fabrics, together with a recommended label for use in guaranteeing conformity to the standard.

APPLICATION

3. The methods and measurements given herein are applicable to finished garments as delivered by the manufacturer.

GENERAL REQUIREMENTS

4. Method of measuring.—The garment to be measured shall be laid out without tension on a smooth, flat surface so that creases and wrinkles will not affect the measurements.

5. Measurements.—The standard minimum measurements of men’s pajamas, whether made from shrunk or unshrunk fabrics, shall be as given in tables 1 and 2.

6. Accuracy.—Measurements shall be taken to the nearest one-eighth inch.

STANDARD METHODS AND MEASUREMENTS

PAJAMA COAT (FINISHED)

METHOD OF MEASURING

7. Length.—Measured from the point where shoulder seam joins the collar band, either down the front or the back, to bottom of the garment (C, fig. 1).

8. Chest.—Measured around the garment 1 inch below bottom of the armholes when coat is buttoned (B, fig. 1).
9. Armhole.—Taken at the outer edge of the armhole seam, measured from the shoulder seam completely around the armhole (A, fig. 1).

10. Sleeve length.—Taken from the center of the top of yoke, when straight cut across the top of the shoulder to the end of the sleeve. Where the top of yoke is circular begin at the center of a straight line drawn between the two top points (E, fig. 1).

11. Sleeve bottom.—Measured around bottom edge of the sleeve (F, fig. 1).

12. Bottom of coat.—Measured around bottom of garment when coat is closed (Z, fig. 1).

Figure 1.—Pajama coat.

### Pajama Trousers (Finished)

#### Method of Measuring

13. Waist.—Measured around top edge of garment when it is buttoned (W, fig. 2).

14. Seat.—Measured around the garment 2 inches above crotch.\(^1\) (G, fig. 2).

15. Thigh.—Measured around the leg 1 inch below the crotch (T, fig. 2).

---

\(^1\)The crotch is the point where the two inseams join the seat seam. (D, fig. 2).
16. *Rise (front).*—Measured from crotch up front of the garment at the center, to top of the waistband \((R, \text{fig. 2})\).

17. *Rise (back).*—Measured from crotch up back of the garment, at the center, to top of the waistband \((S, \text{fig. 2})\).

18. *Outseam.*—Measured from top of the waistband down outseam to the bottom of leg \((O, \text{fig. 2})\).

19. *Inseam.*—Measured from crotch down the inside seam to bottom of leg \((I, \text{fig. 2})\).

20. *Knee.*—Measured around the leg midway between the crotch and the bottom of leg \((K, \text{fig. 2})\).

21. *Bottoms.*—Measured around the leg at bottom of garment \((J, \text{fig. 2})\).

LABELING

22. In order to assure the consumer that he is receiving garments that comply with standard minimum measurements, it is recommended that men's pajamas manufactured to conform to such standard measurements be identified by a sticker, tag, or other label attached to the garment and carrying the statement:

The manufacturer guarantees this garment to have been made to measurements which are in accordance with Commercial Standard CS15-46, as issued by the National Bureau of Standards of the U. S. Department of Commerce.

Or more briefly,
Size conforms to CS15-46.

EFFECTIVE DATE

23. The standard is effective for new production from July 20, 1946.

STANDING COMMITTEE

24. The following individuals comprise the membership of the standing committee, which is to review, prior to circulation for acceptance, revisions proposed to keep the standard abreast of progress. Comment concerning the standard and suggestions for revision may be addressed to any member of the committee or to the Division of Trade Standards, National Bureau of Standards, which acts as secretary for the committee.

Max J. Lovell (chairman), National Association of Shirt & Pajama Manufacturers, 276 Fifth Avenue, New York, N. Y.
Artemus R. Richtmyer, Knothe Brothers Co., Inc., 24-26 West Forty-sixth Street, New York, N. Y.
Louis Lubin, Lubin-Wecker Co., Inc., 1270 Broadway, New York, N. Y.
Leon L. Chock, Sleepwear, Inc., 40 Worth Street, New York, N. Y.
David Linker, Ludwig Bauman & Co., 500 Eighth Avenue, New York, N. Y.
Representing National Assn. of Retail Clothiers & Furnishers.
T. L. Blanke, National Retail Dry Goods Association, 100 West Thirty-first Street, New York 1, N. Y.

HISTORY OF PROJECT

25. On May 3, 1929, agreeable to the request of the Nightwear Manufacturers Division of the International Association of Garment Manufacturers, a general conference of producers, distributors, and users was held at the U. S. Department of Commerce Building, Washington, D. C., to consider the establishment of a commercial standard for men's pajamas.

26. A. F. Allison, Secretary, International Association of Garment Manufacturers, reviewed the development of the proposed standard and the purpose of the manufacturers in undertaking the work. The purpose was further amplified by C. S. Steiner, secretary and treasurer.
Steiner and Son, Inc., who stated that the main objective was to set up a standard that would provide a basis for the elimination of undersized garments; for the settlement of disputes; and for labeling that would indicate conformity with the standard. The recommended commercial standard was subsequently accepted and approved by the industry for promulgation by the United States Department of Commerce as Commercial Standard CS15–29, effective for new production from October 1, 1929.

**FIRST REVISION**

27. On November 27, 1942, the Office of Price Administration requested that the standard be revised in order that the lengths could be adjusted in conformity with General Limitation Order L–169, and that size $E$ be added to bring the majority of production volume within the scope of the price order. A tentative revision of this standard was developed and referred to the standing committee, which recommended that it be circulated to manufacturers, distributors, and consumers for written acceptance. This was done on December 31, 1942, with the result that acceptances estimated to represent a satisfactory volume of production were received, and in the absence of active valid opposition, the establishment of the standard was announced on March 10, 1943.

**SECOND REVISION**

28. On September 21, 1945, the National Association of Shirt and Pajama Manufacturers requested that Men's Pajamas, Commercial Standard (Emergency) CS(E)15–43, be revised in order to make the measurements of sizes $A$, $B$, $C$, and $D$ what they were in CS15–29, and to retain size $E$ in the revised standard.

29. Accordingly, a tentative revision of the emergency standard was developed and referred to the standing committee, which recommended that it be circulated to manufacturers, distributors, and users for written acceptance. This was done on December 26, 1945. Having received acceptances in writing estimated to represent a satisfactory majority, announcement was issued on May 20, 1946 that the standard would become effective for new production from July 20, 1946.
ACCEPTANCE OF COMMERCIAL STANDARD

If acceptance has not previously been filed, this sheet properly filled in, signed, and returned will provide for the recording of your organization as an acceptor of this commercial standard.

Date

Division of Trade Standards,
National Bureau of Standards,
Washington 25, D. C.

Gentlemen:

We believe that the Commercial Standard CS15-46 constitutes a useful standard of practice, and we individually plan to utilize it as far as practicable in the

Production 1 Distribution 1 Purchase 1 Testing 1

of men's pajamas (made from woven fabrics).

We reserve the right to depart from it as we deem advisable.

We understand, of course, that only those articles which actually comply with the standard in all respects can be identified or labeled as conforming thereto.

Signature of authorized officer. (In ink)

(Kindly typewrite or print the following lines)

Name and title of above officer.

Organization. (Fill in exactly as it should be listed)

Street address.

City, zone, and State.

1 Underline which one. Please see that separate acceptances are filed for all subsidiary companies and affiliates which should be listed separately as acceptors. In the case of related interests, trade associations, trade papers, etc., desiring to record their general support, the words "General Support" should be added after the signature.
TO THE ACCEPTOR

The following statements answer the usual questions arising in connection with the acceptance and its significance:

1. Enforcement.—Commercial standards are commodity specifications voluntarily established by mutual consent of those concerned. They present a common basis of understanding between the producer, distributor, and consumer and should not be confused with any plan of governmental regulation or control. The United States Department of Commerce has no regulatory power in the enforcement of their provisions, but since they represent the will of the interested groups as a whole, their provisions through usage soon become established as trade customs, and are made effective through incorporation into sales contracts by means of labels, invoices and the like.

2. The acceptor’s responsibility.—The purpose of commercial standards is to establish for specific commodities, nationally recognized grades or consumer criteria and the benefits therefrom will be measurable in direct proportion to their general recognition and actual use. Instances will occur when it may be necessary to deviate from the standard and the signing of an acceptance does not preclude such departures; however, such signature indicates an intention to follow the commercial standard where practicable, in the production, distribution, or consumption of the article in question.

3. The Department’s responsibility.—The major function performed by the Department of Commerce in the voluntary establishment of commercial standards on a Nation-wide basis is fourfold: first, to act as an unbiased coordinator to bring all interested parties together for the mutually satisfactory adjustment of trade standards; second, to supply such assistance and advice as past experience with similar programs may suggest; third, to canvass and record the extent of acceptance and adherence to the standard on the part of producers, distributors, and users; and fourth, after acceptance, to publish and promulgate the standard for the information and guidance of buyers and sellers of the commodity.

4. Announcement and promulgation.—When the standard has been endorsed by a satisfactory majority of production or consumption in the absence of active, valid opposition, the success of the project is announced. If, however, in the opinion of the standing committee or the Department of Commerce, the support of any standard is inadequate, the right is reserved to withhold promulgation and publication.
ACCEPTORS

30. The organizations listed below have individually accepted this standard for use as far as practicable in the production, distribution, testing or purchase of men's pajamas. In accepting the standard they reserved the right to depart therefrom as they individually deem advisable. It is expected that articles which actually comply with the requirements of this standard in all respects will be regularly identified or labeled as conforming thereto, and that purchasers will require such specific evidence of conformity.
