Approved July 2, 1991

Secretariat: Computer and Business Equipment
Manufacturers Association

Page 1 of 9 pages

Amendments to ANSI X3.138-1988

On the third page of the foreword, add "Dana Marks" to list of Technical Committee X3H4 members.

On page 1-vii, line 16 from top, delete entry for 10.3.9. NOTE: See 1-375 below.

On page 1-23, delete line 23 from top.

On page 1-27, line 15 from bottom replace "... for an entity can defined..." with "... for an entity can be defined ..."

On page 1-29, line 1 from top, replace "(i) The entity's assigned-access-name ..." with "(i) The entity's access-name ..."

On page 1-35, after line 13 from bottom, insert " I date-time-literal 4.2"

On page 1-48, line 3 from top, replace "... See General Rule (7)." with "... See General Rule (6).";

delete lines 4 and 5 from top.

On page 1-54, line 9 from top, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED";

line 7 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"

An American National Standard implies a consensus of those substantially concerned with its scope and provisions. An American National Standard is intended as a guide to aid the manufacturer, the consumer, and the general public. The existence of an American National Standard does not in any respect preclude anyone, whether he has approved the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standard. American National Standards are subject to periodic review and users are cautioned to obtain the latest editions.

The American National Standards Institute does not develop standards and will in no circumstances give an interpretation of any American National Standard. Moreover, no person shall have the right or authority to issue an interpretation of an American National Standard in the name of the American National Standards Institute.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of approval. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.

- On page 1-58,* line 2 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-60,* line 12 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-61,* line 2 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-63,* line 5 from top, replace "(3) Meta-entity-assigned-access-name..." with "(3) Existing-meta-entity-assigned-access-name ...";
line 8 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-65,* line 3 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED";
line 2 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-68,* line 11 from bottom, replace "... specified in meta-entity-list shall be" with "... specified in meta-entity-name-list shall be"
- On page 1-71,* line 8 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-85,* delete lines 13 and 14 from bottom;
line 12 from bottom, replace "(3) ..." with "(2) ...";
line 11 from bottom, replace "(4) ..." with "(3) ...";
line 9 from bottom, replace "(5) ..." with "(4) ...";
line 8 from bottom, replace "(6) ..." with "(5) ...";
line 5 from bottom, replace "(7) ..." with "(6) ...";
line 2 from bottom, replace "(8) ..." with "(7) ...";
- On page 1-86,* line 1 from top, replace "(9) ..." with "(8) ...";
line 4 from top, replace "(10) ..." with "(9) ..."
- On page 1-99,* line 14 from bottom, replace "... General Rule (5) has been violated." with "... Syntax Rule (2) or General Rule (5) has been violated."
- On page 1-100,* lines 8, 9, and 10 from bottom, replace "If specified, using IRD-views-clause shall restrict the selection of entities which shall be included in the entity-list. No entity within the list shall be selected unless it is visible in at least one of the specified IRD-Views." with "If specified, using IRD-views-clause shall restrict the selection of entities. No entity shall be selected unless it is visible in at least one of the specified IRD-Views."
- On page 1-101,* replace first paragraph of Action (2) with "Entities shall be selected. If sort-clause is specified, any additional IRD information used to sort the entities shall also be obtained."
- On page 1-123,* delete line 16 from top, lines 1, 2, and 3 from bottom.
- On page 1-124,* line 1 from top, replace "(c)" with "(b)";
line 4 from top, replace "(d)" with "(c)"

On page 1-136, after line 12 from top, add the following:

- (12) Error E01217: Attribute-group-type specified more than once in command. General Rule (1) of this command has been violated.

On page 1-137, after line 12 from top, add the following:

- (3) If the positional form of line-number-defaults is used, then start shall be less than the maximum number of lines for a text attribute.
- (4) If the positional form of line-number-defaults is used, then increment shall not exceed the implementation-defined maximum number of lines of text for a text attribute.
- (5) Increment shall not be zero;

line 17 from top, insert at end "If line-number-defaults is specified, and start and/or increment are null, then start and/or increment will be assigned implementation-dependent default values."

On page 1-138, after line 16 from top, add the following:

- (9) Error E01159: Invalid line number. Line number is not an integer or exceeds maximum allowed value. Syntax Rule (3) of this command-clause has been violated.
- (10) Error E01160: Invalid increment value. Increment value is not an unsigned integer, exceeds maximum value, or is zero. Syntax Rule (4) or (5) of this command-clause has been violated.

On page 1-150, after line 8 from bottom, add the following:

- (5) If the positional form of line-number-defaults is used, then start shall be less than the maximum number of lines for a text attribute.
- (6) If the positional form of line-number-defaults is used, then increment shall not exceed the implementation-defined maximum number of lines of text for a text attribute.
- (7) Increment shall not be zero.

On page 1-152, after last line, add the following:

- (11) Error E01159: Invalid line number. Line number is not an integer or exceeds maximum allowed value. Syntax Rule (5) of this command-clause has been violated.
- (12) Error E01160: Invalid increment value. Increment value is not an unsigned integer, exceeds maximum value, or is zero. Syntax Rule (6) or (7) of this command-clause has been violated.

On page 1-186, delete line 19 from top;

line 1 from bottom, replace "E(s) is an entity specified in the command-clause or in the specified list." with "E(s) is an entity specified in the command-clause."

On page 1-219, line 6 from bottom, replace "[new-..." with "[, new-..."

On page 1-220, line 7 from bottom, replace "[modified-..." with "[, modified-..."

On page 1-226, after line 5 from top, add the following:

- (3) If the positional form of line-number-defaults is used, then start shall be less than the maximum number of lines for a text attribute.
- (4) If the positional form of line-number-defaults is used, then increment shall not exceed the implementation-defined maximum number of lines of text for a text attribute.

- (5) Increment shall not be zero;

line 10 from top, insert at end "If line-number-defaults is specified, and start and/or increment are null, then start and/or increment will be assigned implementation-dependent default values."

On page 1-227, after line 10 from top, add the following:

- (8) Error E01159: Invalid line number. Line number is not an integer or exceeds maximum allowed value. Syntax Rule (3) of this command-clause has been violated.
- (9) Error E01160: Invalid increment value. Increment value is not an unsigned integer, exceeds maximum value, or is zero. Syntax Rule (4) or (5) of this command-clause has been violated.

On page 1-235, after line 17 from top, add the following:

- (5) If the positional form of line-number-defaults is used, then start shall be less than the maximum number of lines for a text attribute.
- (6) If the positional form of line-number-defaults is used, then increment shall not exceed the implementation-defined maximum number of lines of text for a text attribute.
- (7) Increment shall not be zero.

On page 1-237, After line 11 from bottom, add the following:

- (12) Error E01159: Invalid line number. Line number is not an integer or exceeds maximum allowed value. Syntax Rule (5) of this command-clause has been violated.
- (13) Error E01160: Invalid increment value. Increment value is not an unsigned integer, exceeds maximum value, or is zero. Syntax Rule (6) or (7) of this command-clause has been violated.

On page 1-244, line 4 from top, replace "can" with "are"

On page 1-265, line 11 from bottom, replace

6.19 6.21

with

6.7 6.11 6.19 6.21 6.109 6.112;

line 9 from bottom, replace

6.20

with

6.7 6.11 6.20 6.109 6.112

On page 1-268, line 5 from bottom, replace

6.5 6.9

with

6.5 6.6 6.9

On page 1-301, line 3 from bottom, replace "A list of variation-names for the entity-type being added" with "A list of variation-names for entities of the entity-type being added."

On page 1-326, replace current text of (7) with

- (7) Format. Each meta-attribute-type shall have one of five possible formats: integer (I), string (S), text (TE), date (D), or time (TI). Integer meta-attribute-types have valid values which can be specified as unsigned integers. String meta-attribute-types have values which can be either irds-names or short-string-literals. Text meta-attribute-types

are composed of one to an implementation-dependent maximum number of lines of text. Each line of text has a unique line-number. Date meta-attribute-types have values represented by the mask CCYYMMDD. Time meta-attribute-types have values represented by the mask HHMMSS.

NOTE: This correction ensures the consistency of the format of meta-attribute-type descriptions with the FORMAT meta-attribute-type itself;

line 4 from bottom, replace "... if the format is numeric or string." with "if the format is not text.";

line 2 from bottom, replace "... the format is numeric or string." with "the format is not text."

On page 1-328, line 8 from bottom, replace "T N/A ..." with "TE N/A ..."

On page 1-329, last line, replace "N 1 ..." with "I 1 ..."

On page 1-330, line 16 from top, replace "Identifies those meta-entities which ..." with "Identifies those meta-entities and meta-relationships which ...";

line 19 from bottom, replace "... allowed for numeric attribute-types." with "... allowed for integer attribute-types.";

line 12 from bottom, replace "N 5 ..." with "I 5 ...";

line 8 from bottom, replace "N 5 ..." with "I 5 ..."

On page 1-332, line 3 from top, replace "N 2 ..." with "I 2 ...";

line 14 from bottom, replace "N 1 ..." with "I 1 ...";

last line, replace "N 1 ..." with "I 1 ..."

On page 1-333, line 12 from top, replace "N 2 ..." with "I 2 ...";

line 23 from top, replace "N 2 ..." with "I 2 ...";

line 9 from bottom, replace "N 2 ..." with "I 2 ..."

On page 1-334, line 4 from top, replace "N 2 ..." with "I 2 ...";

line 15 from top, replace "N 2 ..." with "I 2 ...";

line 17 from bottom, replace "N 2 ..." with "I 2 ...";

line 5 from bottom, replace "N 2 ..." with "I 2 ..."

On page 1-335, line 8 from top, replace "N 1 ..." with "I 1 ...";

line 19 from top, replace "N 1 ..." with "I 1 ...";

line 14 from bottom, replace "N 3 ..." with "I 3 ..."

On page 1-336, line 12 from top, replace "N 1 ..." with "I 1 ...";

line 25 from top, replace "N 1 ..." with "I 1 ...";

line 7 from bottom, replace "N 1 ..." with "I 1 ..."

On page 1-337, line 7 from top, replace "N 1 ..." with "I 1 ...";

line 19 from top, replace "N 1 ..." with "I 1 ...";

line 7 from bottom, replace "N 1 ..." with "I 1 ..."

On page 1-338, line 6 from top, replace "N 1 ..." with "I 1 ..."

- On page 1-339,* line 19 from bottom, replace "N 1 ..." with "I 1 ...";
line 8 from bottom, replace "T N/A ..." with "TE N/A ..."
- On page 1-342,* line 13 from top, replace "N 1 ..." with "I 1 ..."
- On page 1-343,* line 19 from bottom, replace "N 2 ..." with "I 2 ...";
line 3 from bottom, replace "S 8 ..." with "D 8 ..."
- On page 1-345,* last line, replace "S 6 ..." with "TI 6 ..."
- On page 1-347,* line 5 from top, replace "N 1 ..." with "I 1 ..."
- On page 1-351,* line 4 from top, replace "Meta-Entity Type" with "Meta-Relationship Type"
- On page 1-353,* line 2 from top, replace "... Meta-Attribute-Type ..." with "... Meta-Attribute-Group ...";
delete the last line.
- On page 1-354,* line 2 from top, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"
- On page 1-364,* line 2 from bottom, end line with close-quotation-mark.
- On page 1-365,* before line 16 from bottom, add the following:
- COMMON-TO-ENTITY-TYPES
- On page 1-366,* lines 17-19 from top, replace
- | | | |
|--|----------------|-----|
| | Implementation | |
| | Lock | ... |
| | OFF | |
- with
- | | | |
|--------------|----------------|-----|
| Common To | Implementation | |
| Entity-types | Lock | ... |
| YES | OFF | |
- lines 10-12 from bottom, replace
- | | | |
|--|----------------|-----|
| | Implementation | |
| | Lock | ... |
| | OFF | |
- with
- | | | |
|--------------|----------------|-----|
| Common To | Implementation | |
| Entity-types | Lock | ... |
| YES | OFF | |
- On page 1-367,* line 13 from bottom, replace "Valication-Type value" with "Validation-Type value"
- On page 1-373,* line 5 from bottom, replace "..., where the meta-entity of type..." with "..., where the meta-attribute of type..."
- On page 1-375,* delete section 10.3.9. NOTE: Section 10.3.9 is a duplicate of the correctly located section 11.2 on p. 1-376.
- On page 1-390,* column 2, after line 15 from top, add the following:
- date-time-literal
- On page 2-8,* line 15 from top, delete " , DOC-CON-IN-DOC";
line 15 from bottom, delete " , ELE-CON-IN-DOC";
line 2 from bottom, delete " , REC-CON-IN-DOC"

- On page 2-9,* line 12 from top, delete " , DOC-PRD-DOC";
line 20 from bottom, delete " , FIL-PRD-DOC";
line 13 from bottom, replace "Document-derived-from-record" with "Document
Derived From Record";
line 7 from bottom, delete " , REC-PRD-DOC"
- On page 2-10,* line 7 from top, delete " , ELE-CON-IN-ELE";
line 20 from top, delete " , DOC-PRD-ELE";
line 12 from bottom, delete " , ELE-PRD-ELE"
- On page 2-11,* line 2 from top, delete " , FIL-PRD-ELE";
line 15 from top, delete " , REC-PRD-ELE";
line 17 from bottom, delete " , ELE-ST-OF-ELE";
line 4 from bottom, delete " , DOC-CON-IN-FIL"
- On page 2-12,* line 10 from top, delete " , ELE-CON-IN-FIL";

Entity-Types	Lock	...
YES	OFF	

On page 4-22, first line, replace "MODIFIED-BY" with "LAST-MODIFIED-BY";
line 3 from top, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"

On page 4-35, line 21 from top, replace "MODIFIED-BY" with "LAST-MODIFIED-BY";
line 12 from bottom, replace "DATE-TIME-MODIFIED" with "DATE-TIME-LAST-MODIFIED"

On page 5-36, delete line 5 from bottom.

FIPS PUBLICATION CHANGE NOTICE

PUBLICATION TITLE

FIPS PUB 156, Information Resource Dictionary System (IRDS).

THIS OFFICE HAS A RECORD OF YOUR INTEREST IN RECEIVING CHANGES TO THE ABOVE FIPS PUBLICATION. THE CHANGE(S) INDICATED BELOW HAVE BEEN PROVIDED BY THE MAINTENANCE AGENCY FOR THIS PUBLICATION AND WILL BE INCLUDED IN THE NEXT PUBLISHED REVISION TO THIS FIPS PUBLICATION. QUESTIONS OR REQUESTS FOR ADDITIONAL INFORMATION SHOULD BE ADDRESSED TO THE MAINTENANCE AGENCY:

Department of Commerce
National Institute of Standards and Technology
Computer Systems Laboratory
Gaithersburg, MD 20899

CHANGE ITEM(S)

Attached is a copy of American National Standard X3.138A-1991 which contains amendments to American National Standard X3.138-1988, Information Resource Dictionary System (IRDS). These amendments correct editorial errors and inconsistencies in X3.138-1988. X3.138A-1991 becomes an integral part of FIPS PUB 156, and, as such, is considered to be included whenever reference is made to FIPS PUB 156.

This change notice should be filed with FIPS PUB 156.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: October 1993 regulatory agenda.

SUMMARY: In compliance with Executive Order (E.O.) 12291 entitled "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354), the Department of Commerce, in April and October of each year, publishes in the Federal Register an agenda of the rulemaking actions covered by section 1 of E.O. 12291 that the Department plans to conduct or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, and rulemaking actions completed since the April 1993 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department's October 1993 regulatory agenda includes regulatory activities that are expected to be conducted during the period October 1, 1993, through September 30, 1994.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for

Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230; telephone: 202-482-0846.

SUPPLEMENTARY INFORMATION: E.O. 12291 requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this order. By memorandum of June 14, 1993, the Office of Management and Budget (OMB) issued guidelines and procedures for the preparation and publication of the October 1993 Unified Agenda of Federal Regulations. The Regulatory Flexibility Act, 5 U.S.C. 602(a), requires agencies to publish, in April and October of each year, a regulatory flexibility agenda which contains a brief description of the subject area of any rule which is likely to have a significant economic impact on a substantial number of small entities.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the Economic Development Administration, the Bureau of Export Administration, the International Trade Administration, the National Institute of Standards and Technology (NIST), the National Oceanic and Atmospheric Administration (NOAA), and the Patent and Trademark Office, issue the greatest share of the Department's regulations.

A large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS) issued by NIST under Public Law 100-235. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines and in providing technical guidance and coordination to Federal agencies, NIST works closely with private industry standard-setting organizations.

Another large number of regulatory actions reported in the agenda deal with

fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery for which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance and timing of some regulatory actions under consideration by the Councils at the time the semiannual regulatory agenda is published.

The DOC October 1993 regulatory agenda follows.

Dated: August 25, 1993/

Carol C. Darr,

Acting General Counsel.

DEPARTMENT OF COMMERCE (DOC)
National Institute of Standards & Technology (NIST)

Proposed Rule Stage**509. FIPS FOR POSIX SYSTEM
ADMINISTRATION****Legal Authority:** PL 100-235**CFR Citation:** None**Legal Deadline:** None

Abstract: This standard will adopt a set of specifications on an interim basis to provide functional system administration requirements for POSIX operating system implementations. Actual utility names and options for system administration will be specified in a future revision to this FIPS. This standard will facilitate the interchange of computer programs among different vendor systems and architectures.

516. NATIONAL VOLUNTARY CONFORMITY ASSESSMENT SYSTEMS EVALUATION

Legal Authority: 15 USC 271 et seq
CFR Citation: 15 CFR 286

Legal Deadline: None

Abstract: The National Institute of Standards and Technology (NIST) will propose to establish the National Voluntary Conformity Assessment System Evaluation (NVCASE) Program. The program will enable the Department of Commerce, acting through NIST, to evaluate and recognize competently conducted conformity assessment activities. The results of NIST evaluations will provide a basis for the U.S. Government to assure foreign governments that qualified conformity assessment bodies are competent to satisfy their regulatory requirements. The program is complementary to those of other Federal agencies and is intended, together with those programs, to provide the basis for U.S. Government negotiations with foreign governments to gain their recognition of U.S.-based conformity assessment bodies as providing results acceptable for regulatory purposes. The program is intended to cover organizations engaged in product sample testing, product certification, and quality system registration and, most especially, their accreditors. NIST will offer its evaluations, based on publicly developed requirements, on a fee-for-service basis and will provide those meeting the requirements (cont)

517. • PROPOSED REVISION OF FIPS 173, SPATIAL DATA TRANSFER STANDARD (SDTS)

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This proposed revision to FIPS 173, Spatial Data Transfer Standard (SDTS), adds a Topological Vector Profile (TVP). The TVP is a limited subset of SDTS specifications for the transfer of vector data. FIPS 173 currently consists of three parts and provides specifications for the organization and structure of digital spatial data transfer, definition of spatial features and attributes, and data transfer encoding. The purpose of this standard is to promote and facilitate the transfer of digital spatial data between dissimilar computer systems. This proposed revision will supersede FIPS PUB 173 in its entirety.

515. NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Legal Authority: 15 USC 271 et seq

CFR Citation: 15 CFR 7; 15 CFR 285

Legal Deadline: None

Abstract: The NVLAP procedures will be redesignated as part 285 of title 15 of the Code of Federal Regulations and revised to: expand the procedures to include accreditation of calibration laboratories; update the procedures for compatibility with conformity assurance and assessment concepts; assure consistency with relevant International Organization for Standardization (ISO) documents (e.g., ISO guides 25, 38, 43, 58, and 9000); and facilitate and promote acceptance of calibration and test results between countries to avoid barriers to trade. Provisions in this regard will facilitate cooperation between laboratories and other bodies to assist in the exchange of information and experience, harmonize standards and procedures, and establish the basis for bilateral and multilateral agreements.

522. FASTENER QUALITY

Significance: Regulatory Program

Legal Authority: PL 101-592

CFR Citation: 15 CFR 280

Legal Deadline: NPRM, Statutory, May 15, 1991.

Abstract: This rule will implement the Fastener Quality Act. In 1990, Congress enacted the Fastener Quality Act (the Act) to protect public safety, deter introduction of nonconforming fasteners into commerce, improve traceability of fasteners used in critical applications, and provide customers with greater assurance that fasteners meet stated specifications. The Act requires that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured; provides for accreditation of laboratories engaged in fastener testing; and requires the

inspection, testing, and certification (in accordance with standardized methods) of fasteners used in critical applications.

531. ADVANCED TECHNOLOGY PROGRAM

Legal Authority: 15 USC 278n

CFR Citation: 15 CFR 295

Legal Deadline: None

Abstract: The American Technology Preeminence Act of 1992 (Public Law 102-245), made changes in the legal authority for the Advanced Technology Program that must be incorporated into the ATP program procedures. Changes address: (1) participation by foreign companies in ATP; (2) the establishment of a patent policy different from the governmentwide policy set out by the Bayh-Dole Act; and (3) a new requirement that "joint research and development ventures" be industry-led. Further, requirements for royalty-sharing by ATP recipients with the Federal Government for inventions funded under ATP have been repealed by the Act and are thus to be removed from the regulations. Similarly, ATP authority to provide direct funding to independent research organizations has been repealed, and appropriate revisions to the regulations are needed. Also, changes not required by the Act will be proposed, including changes to simplify and clarify the selection criteria and to streamline the internal operations of ATP, including the selection process.

DOC—NIST

Final Rule Stage

533. • WITHDRAWAL OF FIPS 30 AND FIPS 53 WHICH PROVIDED STANDARD FORMS FOR DESCRIBING COMPUTER PROGRAMS AND COMPUTER MAGNETIC TAPE**Legal Authority:** PL 100-235**CFR Citation:** None**Legal Deadline:** None**Abstract:** FIPS 30, Software Summary for Describing Computer Programs, and FIPS 53, Transmittal Form for

Describing Computer Magnetic Tape File Properties, provided standard forms for describing computer programs and computer magnetic tape. These FIPS are being withdrawn because the standard forms are obsolete and no longer stocked by the General Services Administration.

FIPS 128-1, COMPUTER GRAPHICS METAFILE (CGM)****Legal Authority:** PL 100-235**CFR Citation:** None**Legal Deadline:** None**Abstract:** This revised FIPS adopts the redesignated version of the CGM standard, known as ANSI/ISO 8632.1-4:1992, and adds a requirement for the use of profiles. A profile defines the options, elements, and parameters of ANSI/ISO 8632 necessary to accomplish a particular function and to maximize the probability of interchange between systems implementing the profile. The revised FIPS adopts MIL-D-28003A, Computer-Aided Acquisition and Logistics Support (CALS), as the first CGM Application Profile.**Timetable:**

538. FIPS 127-2, DATABASE LANGUAGE SQL

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This revision to FIPS 127-1, Database Language SQL, adopts the American National Standard: Database Language SQL (X3.135-1992). This revision to FIPS 127-1 provides a substantial, upward-compatible enhancement of Database Language SQL.
