GUIDELINE FOR OPTICAL CHARACTER RECOGNITION (OCR) PRINT QUALITY

CATEGORY: HARDWARE STANDARD

BCATEGORY: CHARACTER RECOGNITION
Foreword

The Federal Information Processing Standards Publication Series of the National Bureau of Standards is the official publication relating to standards adopted and promulgated under the provisions of Public Law 89-306 (Brooks Act) and under Part 6 of Title 15, Code of Federal Regulations. These legislative and executive mandates have given the Secretary of Commerce important responsibilities for improving the utilization and management of computers and automatic data processing in the Federal Government. To carry out the Secretary’s responsibilities, the NBS, through its Institute for Computer Sciences and Technology, provides leadership, technical guidance, and coordination of Government efforts in the development of guidelines and standards in these areas.

Comments concerning Federal Information Processing Standards Publications are welcomed and should be addressed to the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, DC 20234.

James H. Burrows, Director
Institute for Computer Sciences and Technology

Abstract

This guideline provides basic information on methods for evaluating the readability of printed characters and symbols that are to be optically recognized by electronic means. In addition, it gives tolerance ranges which permit the system designers to make the most beneficial cost tradeoffs between the various parts of a complete optical character recognition system.

The specifications are contained in "Guidelines for Optical Character Recognition (OCR) Print Quality" ANS X3.99-1983 published by the American National Standards Institute.

This guideline is related to FIPS PUBS 32-1, 40, 85, and 89.

Key words: Computer systems; data entry (automatic); Federal Information Processing Standards Publication (FIPS PUB); information processing systems; optical character recognition; print quality.

(1983)

For sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161.

Name of Guideline. Guideline for Optical Character Recognition (OCR) Print Quality (FIPS PUB 90).

Category of Guideline. Hardware, Character Recognition.

Explanation. This guideline provides basic information on methods for evaluating printed characters that are to be read by Optical Character Recognition (OCR) equipment.

Related Documents.

a. Federal Information Processing Standards Publication (FIPS PUB) 32-1, Character Sets for Optical Character Recognition (OCR).

c. Federal Information Processing Standards Publication (FIPS PUB) 85, Optical Character Recognition (OCR) Inks.

Applicability. This guideline is intended to be a basic reference for operators of optical character recognition (OCR) systems or components throughout the Federal Government. Use of this guideline will help ensure uniform qualities in the printing of documents and forms that are to be automatically read by OCR equipment and assist systems designers and operators to maintain cost effective and reliable system operations.
FIPS PUB 90

Qualifications. None.

Implementation Schedule. Consideration of this guideline should occur at an early stage in a system's operational life cycle in order to achieve the maximum cost effective and reliable systems operation. At installations where quality control procedures are now in use, such procedures may be enhanced by considering the procedures outlined in this guideline. Such a comparison will help ensure the most reliable OCR operations with the equipment available.

Where to Obtain Copies. Copies of this publication are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. (Sale of the included specifications document is by arrangement with the American National Standards Institute.) When ordering, refer to Federal Information Processing Standards Publication 90 (FIPS-PUB-90), and title. Payment may be made by check, money order, purchase order, credit card, or deposit account.
