A BIBLIOGRAPHY OF THE NBS ELECTROMAGNETIC FIELDS DIVISION PUBLICATIONS

Edited by
Kathryn A. Gibson and Charles K. S. Miller

This bibliography lists the publications of the personnel of the NBS Electromagnetic Fields Division in the period from January 1980 through December 1981.

Key words: antennas; electromagnetic interference; em material properties; electromagnetic metrology; microwaves; noise; non-ionizing radiation; radiation hazards.

INTRODUCTION

This bibliography updates and supplements NBSIR 80-1635 which lists the publications of the Electromagnetic Fields Division from January 1970 to December 1979. The publications listed in this supplement were published in 1980 and 1981.

The Electromagnetic Fields Division was formed during the reorganization of NBS in April 1978. The Division develops measurement methods and standards, and provides metrological support for: antenna systems, noise measurement equipment, electromagnetic interference, electromagnetic environmental characterization equipment especially for near fields to sources or a near-field like condition, electromagnetic emission and immunity (or susceptibility) testing equipment, and for measuring equipment used for dielectric or loss characterization of materials. The editors have attempted to include all work published by the staff members of the Division, in the period from January 1980 through December 1981. There are a few exceptions. Relevant work performed by authors prior to joining this Division or work by authors who have left this Division has been included because of its special significance. A miscellaneous category includes general publications. A few references are listed in more than one category where appropriate.

There are several other information sources that may be useful to the reader who is interested in activities at NBS connected with electromagnetic metrology. Companion bibliographies list publications of the Electromagnetic Technology Division. Its topics include metrology for: microwave circuits, laser systems, optical communication equipment, systems using transient or pulsed electromagnetic phenomena, cryoelectronics, superconductors and other unusual electrical engineering materials. Three bibliographies of the publications of the former Electromagnetics Division have been published: NBSIR 73-320 (July 1972-June 1973); NBSIR 74-395 (July 1973-June 1974); NBSIR 75-818 (July 1974-June 1975). These were preceded by a series of unpublished reports (edited by H. M. Altschuler) that cover the period back to 1956. An excellent summary of the whole field of electromagnetic metrology as it stood in 1967 was published as a special issue of the IEEE Proceedings (volume 55, June 1967). Advances in the following decade were described in another special issue of the same journal (volume 66, April 1978).

A NOTE ON ABBREVIATIONS

Most readers will be familiar with the commonly used abbreviations for the names of the various professional journals that appear in this bibliography. There are also several publication series that are peculiar to NBS and call for explanation. They are:

| | | |
|--------|---|---------------------------------|
| NBSIR | - | NBS Interagency/Internal Report |
| NBS-TN | - | NBS Technical Note |
| NBS-SP | - | NBS Special Publication |
| NBS-MN | - | NBS Monograph |

Purchase Procedures and Document Availability

NBS Technical Notes and Special Publications may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders must be accompanied by postal money order, express money order, or check made out to the Superintendent of Documents.

NBS Interagency/Internal Reports (NBSIR's) may be purchased from the National Technical Information Service, Springfield VA 22161. Order must be accompanied by postal money order, express money order, or check made out to the NTIS.

Reprints of papers published in non-NBS media may be available in limited quantities from the authors.

Microwave Antenna Measurement Services at the National Bureau of Standards

Baird, R. C.
Digest, Antenna Meas. Tech. Assn. Mtg.
Oct. 1981

Broadband Orthogonal Array Antenna System: Microprocessor Control and Computation

Bensema, W. D.
Record, EMC '81
Aug. 1981

Optimized Wavelength-Sized Scalar Horns as Antenna Radiation Standards

Estin, A. J.; Stubenrauch, C. F.; Repjar, A. G.; and Newell, A. C.
1981 EEMTIC Digest
June 1981

The Characteristics of a Linear Antenna with Tapered Resistive and Capacitive Loading

Kanda, M.
Proc., IEEE AP Symp., Quebec, Canada
June 2-6, 1980, Vol. 2, AP.18-2, pp 696-699

The Time Domain Characteristics of a Traveling Wave Linear Antenna with Linear and Non-Linear Loads

Kanda, M.
IEEE Trans. Ant. & Prop.
March 1980, Vol. AP-28, No. 2

Analytical and Numerical Techniques for Analyzing an Electrically Short Dipole with a Nonlinear Load

Kanda, M.
IEEE Trans. Ant. & Prop.
Jan. 1980, Vol. AP-28, No. 1, pp 71-78

Transients in Resistively Loaded Antennas and Their Comparison with Conical Antennas and a TEM Horn

Kanda, M.
IEEE Trans. Ant. & Prop.
Jan. 1980, Vol. AP-28, No. 1, pp 132-136

Plane-Wave Scattering-Matrix Theory of Antennas and Antenna-Antenna Interactions

Kerns, D. M.
NBS Monograph 162
June 1981

Spherical-Wave Source-Scattering-Matrix Analysis of the Mutual Coupling Between Two Antennas

Lewis, R. L.
Digest, 1981 IEEE/AP-S Int'l Symp.
June 1981

Efficient Computation of the Far Field Radiated by an Arbitrary Rectangular-Aperture Distribution

Lewis, R. L.
NBSIR 81-1643
April 1981

Synthesis of Broadband Antenna Arrays as Possible Over-the-Horizon Radars

Ma, M. T.
Book, "Research Topics in EM Wave Theory" (John Wiley Interscience)
1981, Chapter 9

Synthesized Isotropic Pattern Antennas for EM Field Measurements

Reeve, G. R.
Symp. Record, "EMC '81," 1981 IEEE Int'l Symp. on Electromagnetic
Compatibility, Boulder, CO, Aug. 18-20, 1981
Aug. 1981

A Frequency Tracking, Tuned, Receiving Monopole

Reeve, G. R. and Wainwright, A. E.
Record, IEEE/APS Symp.
June 1981

Results of Planar Near-Field Measurements on a Compact Range at 18 and 54 GHz

Repjar, A. G. and Kremer, D. P.
Digest, 1980 IEEE/AP-S Symposium

Determination of Mutual Coupling Between Co-Sited Microwave Antennas and
Calculation of Near-Zone Electric Field

Stubenrauch, C. F. and Yaghjian, A. D.
NBSIR 81-1630
June 1981

Fields of a Horizontal Loop of Arbitrary Shape Buried in a Two-Layer Earth

Wait, J. R. and Hill, D. A.
Radio Science
Sep.-Oct. 1980, Vol. 15, No. 5, pp 903-912

A Delta-Distribution Derivation of the Electric Field in the Source Region
