Director

## ABSTRACT

This report describes the General Agreement on Tariffs and Trade (GATT) Standards Code activities conducted by the National Institute of Standards and Technology (NIST), for calendar year 1994. NIST received and processed 508 notifications of proposed technical regulations; reported 67 proposed U.S. technical regulations to the GATT Secretariat; responded to 409 inquiries for GATT notification information; participated in various bilateral and multilateral standards-related trade discussions; and responded to inquiries on the existence, source and availability of standards and standards-related information.

**Key Words:** conformity assessment information; GATT Standards Code; notifications; proposed foreign regulations; standards information; technical assistance

## INTRODUCTION

### 15 Years of the Standards Code

The end of 1994 marked the 15th anniversary of the implementation of the Agreement on Technical Barriers to Trade (popularly known as the Standards Code) in the United States. From January 1, 1980 through December 31, 1994, thousands of notifications, requests and GATT hotline calls were received by NIST's Applications and Assistance Program (AAP). Specifically: 4,406 notifications (3,923 foreign, 483 U.S.); 5,421 requests (4,192 U.S., 1,229 foreign) for information related to the Standards Code; and 6,591 hotline calls were processed. Other related activities included handling of comments on proposed foreign and U.S. technical regulations, translation of foreign documents, meetings of persons responsible for information exchange, publication of a newsletter, and development of a computerized database.

There were 32 signatories when the Standards Code was first implemented in 1980. At the end of 1994, there were 46 signatories, thirty-six of which had actively implemented the Code in their countries. The Standards Code was administered by the Secretariat of the General Agreement on Tariffs and Trade (GATT) in Geneva, Switzerland.

In 1994, the second round of trade negotiations, called "the Uruguay Round of Multilateral Trade Negotiations," concluded and resulted in a revised Standards Code and a new institution as successor to the GATT. The revised Standards Code, which maintained the same title - Agreement on Technical Barriers to Trade, is now known as the TBT Agreement. The World Trade Organization (WTO) will replace the GATT. The U.S. Trade Agreements Act of 1979, which ratified the United States' accession to the GATT Standards Code in 1980, was revised in 1995 to implement the new TBT Agreement. Future annual reports will describe our activities under the WTO TBT Agreement - the same information just different acronyms and names!

### 1994 Activities

As of 1994, eight of the original signatories had either not: 1) ratified the Agreement; 2) established an inquiry point for standards information; 3) reported any proposed government mandatory regulations (see Table I); or 4) some combination of the foregoing.

AAP, within the Office of Standards Services, is responsible for several provisions relating to the establishment of a U.S. inquiry point,<sup>1</sup> a standards information center, and a technical office for non-agricultural products.

This report summarizes Standards Code activities conducted by AAP for calendar year 1994.

---

<sup>1</sup> The Standards Code requires that each signatory provide an inquiry point to answer all requests for information about technical regulations, standards, and rules of conformity assessment.

## INQUIRY POINT

### Notifications

Signatories of the Standards Code must notify the GATT Secretariat of all proposed government regulations and conformity assessment procedures that might significantly affect international trade. The Secretariat, in turn, disseminates the notifications to all other signatories. As the official U.S. GATT inquiry point for information on standards and certification activities, AAP notifies the Secretariat of proposed U.S. Federal Government rules that might significantly affect trade. AAP also receives foreign notifications through the GATT Secretariat and disseminates them, along with supplementary information, to appropriate U.S. companies and industry groups. AAP responds to inquiries about foreign and U.S. notifications, provides copies of the proposed regulations, and arranges for fee-supported translations of foreign standards. AAP also assists in developing comments on the impact on U.S. industry of proposed foreign regulations and transmits them to the foreign government concerned.

In 1994 the GATT Secretariat issued 508 notifications. Twenty-five signatories each reported at least one proposed regulation (see Table II.) Mexico had the most notifications (89). Twelve other signatories - Australia, Belgium, Canada, Denmark, EC<sup>2</sup>, Japan, Korea, Netherlands, Slovak Republic, Sweden, Switzerland, and the United States - each reported 10 or more proposed regulations.

An official in the Office of the U.S. Trade Representative (USTR), based in Geneva, receives notifications from the GATT Secretariat and cables them to the United States. The notifications, all of which are available in English, include the name of the country proposing the regulation; the assigned Technical Barriers to Trade (TBT)/Notification number; a brief description of the regulation; and the final date for comments (see Appendix A). In order to provide wide access to this information in the United States, all foreign notifications are published in the Commerce Business Daily and several other U.S. publications. AAP maintains a computerized database on all GATT notifications and a telephone GATT hotline where up-to-date notification information can be obtained. The hotline number is (301) 975-4041.

### Proposed U.S. Regulations

All proposed U.S. Government rules (mandatory standards or conformity assessment systems), including proposed revisions, are published in the Federal Register by the responsible Federal agency. AAP staff regularly review the Register to identify those proposed regulations that may potentially affect trade and therefore should be notified to the GATT Secretariat. Notices of these proposals are sent directly to the GATT Secretariat via fax. Those which adopt international standards may not be reported.

---

<sup>2</sup> The European Community (EC) has retained this name, rather than the European Union, concerning the GATT/WTO.

In 1994, 67 proposed U.S. regulations were reported covering such subjects as food additives, respiratory devices, upholstered furniture, meat and poultry products, and motor vehicles. The originating agencies are shown below. (See Table III for listing of specific products by agency.)

| <u>Agency</u>   | <u>No. of Notifs.</u> |
|---|-----------------------|
| Bureau of Alcohol, Tobacco & Firearms (BATF)                  | 1                     |
| Consumer Product Safety Commission (CPSC)                     | 6                     |
| Dept. of Energy (DOE)   | 1                     |
| Dept. of Transportation (DOT)                                 | 2                     |
| Environmental Protection Agency (EPA)                         | 20                    |
| Federal Highway Administration (FHWA)                         | 2                     |
| Food & Drug Administration (FDA)                              | 6                     |
| Federal Trade Commission (FTC)                                | 1                     |
| Mine Safety & Health Admin. (MSHA)                            | 1                     |
| National Highway Traffic Safety Admin. (NHTSA)                | 14                    |
| National Institute of Occupational Safety<br>& Health (NIOSH) | 1                     |
| Dept. of the Treasury (TREAS)                                 | 1                     |
| U.S. Dept. of Agriculture (USDA)                              | <u>11</u>             |
| Total   | 67                    |

#### Proposed Foreign Regulations

The GATT Secretariat in 1994 issued 441 notifications from countries other than the United States (see Table IV.) The foreign regulations covered a wide variety of products including telecommunication equipment, pig breeding, chemicals, fire protection, life vests and food products. A subject listing of foreign notifications is contained in Appendix B.

AAP regularly sends foreign notifications to groups and individuals to serve their information needs and to allow them to disseminate this information to others. AAP sends copies of all foreign notifications to the American National Standards Institute for subsequent publication in its biweekly Standards Action.

#### Inquiries

AAP responded to 409 domestic and foreign letter and telephone requests for GATT notification information (231 U.S., 178 foreign) in 1994. Many requestors asked for copies of more than one regulation. In addition, a number of requestors asked for general information on the Standards Code. AAP responds to such requests by sending an information package consisting of the latest issue of: its newsletter, TBT News; a list of recent foreign notifications; brochures describing the Standards Code; and ordering information for the Commerce Business Daily.

In 1994, the most often requested regulations concerned telecommunications equipment, electrical products, packaging and labeling, and medical devices. In addition, 619 individuals called the GATT hotline for up-to-date information on foreign notifications.

Inquiries are received from a variety of companies and organizations such as Hewlett Packard, Acts Testing Labs, Air-Conditioning and Refrigeration Institute, Coca Cola Co., Unisys Co., and Mobility Systems and Equipment Co. We also receive requests from individuals who serve as consultants or who obtain information for their own use. The types of requests vary as widely as the products subject to notification. Some companies are interested in particular subject or product areas (e.g., telecommunications, motor vehicles, environmental issues); others are interested in specific countries (e.g., Mexico, EC, Japan).

The information is used by these groups as: 1) an alert system of proposals of interest to them; 2) a mechanism to review the proposal to ascertain its trade impact; 3) an opportunity to comment on the document; and 4) a method for verifying information that they have received from their subsidiaries or agents in a foreign country.

### Translations

Upon request, AAP will ask for the text of the proposed foreign regulations which are subject to notification. Signatory countries are required to supply copies of regulations through their inquiry points. Of the 167 regulations requested and received in 1994, 76 were in languages other than English. AAP coordinates a service to obtain, on request, an English translation of any proposed regulation in a foreign language. The cost of translation is paid by the requestor; if more than one request is received for the same translation, the cost is divided equally among requestors. The cost of a translation is determined by the number of words contained in the document and the price per 1,000 words charged by the contractor. In 1994, AAP coordinated the translation of three foreign documents.

## STANDARDS INFORMATION

The National Center for Standards and Certification Information (NCSCI) is the national focal point for standards-related information. NCSCI supports GATT inquiry point activities by supplying information concerning both domestic and foreign standards. The information center, established in 1965 and mandated by the Trade Agreements Act of 1979, provides government, industry, and the public with information on standards, technical regulations, certification programs, and related activities that affect trade and commerce.

NCSCI maintains in microform, CD-ROM and/or hard copy a collection of engineering standards and specifications, test methods, regulations, certification rules, directories, reference books, and special publications. In 1994, NCSCI staff responded to requests from all over the world on the existence, source, and availability of standards and related documents. Thirty-nine of the 46 signatories contacted the Center for information (see Appendix C). NCSCI also responds to trade-related queries regarding regulations or other requirements imposed by foreign countries that affect the export of U.S. manufactured products.

In the related area of the EC Single Internal Market, NCSCI maintains an EC hotline to report on draft CEN and CENELEC standards and EC directives related to standards which may affect trade. The recorded hotline - (301) 921-4164 - is updated weekly and provides the subject/product areas, document number, and final date for comments. A total of 367 calls were received on the hotline during 1994.

#### TECHNICAL OFFICE

The Technical Office, established by the Trade Agreements Act of 1979, is responsible for providing technical support related to non-agricultural products<sup>3</sup>. Office functions include: a) participation in standards-related conferences; b) technical assistance to the International Trade Administration of the Department of Commerce and the Office of the U.S. Trade Representative in developing proposals to enhance the Standards Code; c) preparation of special reports on standards issues; and d) coordination of comments on proposed foreign regulations. 1994 Technical Office activities included:

- office staff continued to participate in meetings of the Committee on Standards Related Measures to oversee implementation of the standards obligations under the North American Free Trade Agreement;
- assistance to other U.S. agencies with issues concerning the accession of Chile to NAFTA;
- provided support to the U.S. agricultural tractor industry by participating in the coordinating committee for the Organization for Economic Cooperation and Development (OECD) testing in the United States. In this role, AAP staff provided liaison between OECD and Equipment Manufacturers Institute and the University of Nebraska tractor testing station.
- continued standards assistance to Saudi Arabia with the assignment of a NIST Standards Advisor to work in Saudi Arabia with the Saudi Arabian Standards Organization in its ongoing program on standards development;
- supported the NIST Standards and Trade Program by providing guidance to standards experts assigned to foreign countries and through training programs to foreign groups from various industry sectors;
- made numerous presentations and speeches made by technical office staff regarding standards and international activities; and
- provided NIST liaison with the Industry Functional Advisory Committee on standards, which advises the government on standards-related policy issues.

---

<sup>3</sup> The U.S. Department of Agriculture, Foreign Agricultural Service maintains a technical office for agricultural products and issues.

## Comment Handling

A major objective of the Standards Code is to allow exporters, government agencies, and other interested parties to comment on proposed foreign regulations which they believe would impede exports. AAP provides the text of proposed foreign regulations upon request and encourages the submission of comments if a regulation appears to create trade barriers. Industry representatives often become aware of proposed regulations through involvement with their foreign counterparts or subsidiaries and are able to provide informal comments directly to the relevant country.

AAP has procedures to transmit comments, upon request, from U.S. organizations to appropriate foreign governments and coordinates any follow-up activity. In 1994, AAP received and processed formal comments from U.S. industry and government agencies on three foreign regulations: EC on pressure equipment (93.445); France on scallops (94.259); and Switzerland on cosmetics (94.84). Industries may also comment directly to the foreign ministry responsible for the regulation and often do.

AAP also handles comments from foreign countries on proposed U.S. technical regulations reported to the GATT Secretariat. AAP staff forward comments to the appropriate U.S. Federal government agency for consideration. In 1994, comments were received from the following foreign countries on proposed U.S. regulations: 1) from Austria on regulations concerning imported merchandise (94.5 TREAS) and upholstered furniture (92.204 CPSC); and from the EC on regulations concerning meat and poultry products (93.437, 94.116 & 94.117 USDA), wood articles (94.28 USDA), milk and milk products (94.217 USDA), motor vehicles (93.458 NHTSA), food additives and ingredients (94.169 FDA), textile and piece goods (94.203 FTC), and upholstered furniture (94.204 CPSC).

## Comment Periods

To allow signatories adequate time to receive the text of a regulation (and to have it translated if necessary), review it, and prepare comments, the Standards Code recommends a comment period of at least 60 days. If the comment period is insufficient (e.g., due to late receipt of an English version or complicated technical issues), the AAP staff will request that the issuing country extend the comment period. In 1994, five such requests were made by the United States to a notifying Party. AAP staff also received 36 requests from other signatories requesting extensions of the comment period for proposed U.S. technical regulations. In most cases, no formal extensions of the comment periods were made. Most U.S. regulatory agencies and foreign ministries will, however, accept comments if received within a reasonable time after the final date for comments.

The average length of the comment period<sup>4</sup> in 1994 was 43 days for U.S. regulations and 48 days for foreign regulations. The average length of the comment period allowed by U.S. agencies is as follows:

|      |         |       |         |
|------|---------|-------|---------|
| BATF | 36 days | FTC   | 48 days |
| CPSC | 52 days | MSHA  | 39 days |
| DOE  | 47 days | NHTSA | 49 days |
| DOT  | 89 days | NIOSH | 36 days |
| EPA  | 25 days | TREAS | 81 days |
| FDA  | 59 days | USDA  | 44 days |
| FHWA | 45 days |       |         |

Comment periods for foreign regulations ranged from none at all to 157 days. The average number of days for comment period by country was: Australia - 36; Belgium - 0; Canada - 45; Czech Republic - 34; Denmark - 32; EC - 58; Finland - 44; France - 29; Germany - 24; Hong Kong - 82; Hungary - 0; Israel - 0; Japan - 62; Korea - 56; Malaysia - 57; Mexico - 49; Netherlands - 54; New Zealand - 22; Norway - 82; Philippines - 80; Singapore - 0; Slovak Republic - 39; Sweden - 63; and Switzerland - 52.

## CONCLUSION

AAP continues to work with U.S. industry to address standards-related trade questions and concerns to assure wide distribution of relevant notifications of proposed foreign regulations which might affect trade. Requests for further information, suggestions on how the service might be made more useful, or comments on subjects covered in this report should be directed to:

Applications and Assistance Program  
National Institute of Standards and Technology  
TRF Building, Room A163  
Gaithersburg, MD 20899  
(301) 975-4037  
FAX: (301) 926-1559

For specific standards-related information from NCSCI, call (301) 975-4040, -4038, -4036 or -5155. For up-to-date information on: 1) proposed foreign regulations, call the GATT Hotline (301) 975-4041; or 2) draft CEN/CENELEC documents, call the EC Hotline (301) 921-4164.

---

<sup>4</sup> Number of calendar days between the date the notification was issued by the GATT Secretariat and the closing date for comments.

TABLE I

STANDARDS CODE SIGNATORIES

|                                |                 |
|--------------------------------|-----------------|
| Argentina (b)                  | Korea           |
| Australia                      | Luxembourg (b)  |
| Austria                        | Malaysia        |
| Belgium                        | Mexico          |
| Brazil                         | Morocco (c)     |
| Canada                         | Netherlands     |
| Chile                          | New Zealand     |
| Czech Republic                 | Norway          |
| Denmark                        | Pakistan (b)    |
| Egypt (b)                      | Philippines     |
| European Community (EC)        | Portugal (b)    |
| Finland                        | Romania         |
| France                         | Rwanda (a) (c)  |
| Federal Republic<br>of Germany | Singapore       |
| Greece (b)                     | Slovak Republic |
| Hong Kong                      | Spain           |
| Hungary                        | Sweden          |
| India                          | Switzerland     |
| Indonesia (b)                  | Thailand (b)    |
| Ireland                        | Tunisia         |
| Israel                         | United Kingdom  |
| Italy                          | United States   |
| Japan                          | Yugoslavia      |

(a) - the country signed the Standards Code but its legislature did not ratify it nor report any proposed regulations to the GATT Secretariat.

(b) - the country did not report any proposed regulations to the GATT Secretariat.

(c) - the country did not establish an inquiry point for standards information nor report any proposed regulations to the GATT Secretariat.

NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

|     |   |
|-----|---|
| 1.  | Party to Agreement notifying: <u>JAPAN</u>  |
| 2.  | Agency responsible: Ministry of Agriculture, Forestry and Fisheries   |
| 3.  | Notified under Article 2.5.2 [X], 2.6.1 [ ], 7.3.2 [ ], 7.4.1 [ ], other:   |
| 4.  | Products covered (HS or CCCN where applicable, otherwise national tariff heading. ICS numbers may be provided in addition, where applicable):<br><br>Sawn timber, structural lumber for wood frame construction and structural softwood timber (HS: 44.07-10) |
| 5.  | Title and number of pages of the notified document: Amendment to the Standard of Sawn Timber, Structural Lumber for Wood Frame Construction and Structural Softwood Timber (available in Japanese, 91 pages)  |
| 6.  | Description of content: Additional designation of new chemical treatments and modification of treatment name in standards for antiseptic and anti-ant treatment.  |
| 7.  | Objective and rationale: Consumer protection  |
| 8.  | Relevant documents: The basic law is the Law Concerning Standardization and Proper Labelling of Agricultural and Forest Products.<br><br>The said standards will appear in "KAMPO" (Official Government Gazette) when adopted.                                |
| 9.  | Proposed date of adoption and entry into force: Not yet determined  |
| 10. | Final date for comments: 3 October 1994   |
| 11. | Texts available from: National enquiry point [X] or address and telefax number of other body:   |

APPENDIX C  
NUMBER OF INQUIRIES BY SIGNATORY

Thirty-nine of the 46 signatories to the Standards Code contacted the National Center for Standards and Certification Information for information on proposed or existing U.S. standards and technical regulations. The number in parentheses ( ) indicates the number of inquiries which came from the GATT inquiry points. Many requests come from private companies or individuals.
