Office of Standards Information,
Analysis and Development

U.S. Department of Commerce

National Bureau of Standards

National Engineering Laboratory

Washington, D.C. 20234

NBS Standards Information Service (NBS-SIS)

NBS-SIS assists in the Bureau's goal of strengthening and advancing the Nation's science and technology by providing up-to-date information on standards and standardization activities.

KWIC Index

By means of a computer-produced Key-Word-In-Context (KWIC) Index, NBS-SIS answers such questions as:

- Are there any standards for electric toasters?
- Have test methods been established for determining various characteristics for fireclay brick?
- Has the nomenclature used in quality control been defined?
- Have specifications for magnetic ink been established by a nationally recognized organization?
- Is there a military specification for nylon rope?

Users include Federal and military agencies, business and industry, State and local government, schools and universities, foreign organizations, and the general public.

Reference Collection

NBS-SIS maintains a reference collection of engineering and related standards, which includes over 240,000 standards, specifications, test methods, codes, and recommended practices issued by:

- U.S. technical societies, professional organizations, and trade associations
- State purchasing offices
- U.S. Government agencies
- Foreign national and international standardizing bodies

The collection also contains:

- Over 300 reference books
- Articles, pamphlets, reports, and handbooks on standardization
- 150 periodicals and newsletters
- VSMF (Visual Search Microfilm Files)

To obtain NBS-SIS Information. . .

Requests for free lists of standards compiled by NBS-SIS, together with names of organizations where copies of the standards can be obtained, should be as specific as possible and include all terms necessary to locate the standards (e.g., x-ray machines rather than medical electronic equipment).

By Letter. . .

Write to:

Standards Information Service
Room B-162, Building 225
National Bureau of Standards
Washington, D.C. 20234

By Telephone. . .

Call:

(301) 921-2587

By Telex. . .

89-8493

By Personal Visit. . .

The collection is open Monday through Friday from 8:30 a.m. to 5:00 p.m. at:

Rooms B151-159 (Enter Room B161),
Building 225
National Bureau of Standards
Gaithersburg, Maryland
(about 25 miles/40 kilometers north-
west of Washington, D.C.)
