# FOR CONSUMERS, PRACTICAL INFORMATION BASED ON SCIENTIFIC RESEARCH FROM THE NATIONAL BUREAU OF STANDARDS

Consumer information based on the research and experience of the National Bureau of Standards—the Nation's advanced physical science and measurement laboratory—is available on a variety of subjects. Written in easily understood language, the listed publications cover a variety of topics ranging from how to select hearing aids, understand the computers in your daily life, save energy, reduce corrosion around the house (in your car, too), to making your home more burglar resistant.

## FREE BROCHURES

To order the following free publications, write to the Consumer Information Center, Pueblo, Colorado 81009. Use order numbers indicated and note free on the envelope.

**How to Improve the Efficiency of Your Oil-Fired Furnace (605G).** What you and the service technician should check; adjustments that will improve furnace efficiency.

**Home Security Alarms (613G).** Types available, how they work, how to get the best service from an alarm system.

**Home Security Starts at Your Door (614G).** Prevent break-ins through proper construction of doors and frames and selection of effective locks and hinges. (Spanish version--La Seguridad Del Hogar Empieza En Su Puerta--available from Consumer Information Series, Bldg 220, Room B364, National Bureau of Standards, Washington, D.C. 20234).

**Smoke Detectors (617G).** Purchase, installation, and maintenance. (Spanish version--Detectores de Humo--available from Consumer Information Series, Bldg 220, Room B364, National Bureau of Standards, Washington, D.C. 20234).

## OTHER BROCHURES FROM NBS' CONSUMER INFORMATION SERIES

To order write to the U.S. Government Printing Office, Superintendent of Documents, Washington, D.C. 20402. Use order numbers indicated.

**Facts About Hearing and Hearing Aids (S/N 3-003-00920-2, \$1.10).** How hearing and hearing aids work; types available and their selection, maintenance, and cost.

**Corrosion Facts for the Consumer (S/N 003-003-01947-0, 80¢).** How corrosion of various metals in common use can be prevented or slowed; four major types of corrosion and simple steps to prevent, inhibit, or remove.

**Automation in the Marketplace (S/N 003-003-01969-1, 90¢).** To help understand recent computer automation in businesses and banking; descriptions of computer automation in grocery, retail, and banking communities.

**What About Metric? (S/N 003-003-01688-8, 35¢).** Commonly used measurements translated into their metric equivalents; how metric will affect the marketplace and home.

**Making the Most of Your Energy Dollars (in home heating and cooling) (S/N 003-003-01446-0, 70¢).** Reduce household energy costs through relatively simple home improvements; how to calculate the best combination of improvements for your house, climate, and fuel costs.

**Color in Our Daily Lives (S/N 003-003-01536-9, \$1.70).** Principles governing color relationships; how to use color harmoniously in dress, cosmetics, and homes.

**Care of Books, Documents, Prints, and Films (S/N 003-003-00941-5, 45¢).** Ways to preserve the life of family treasures--films, books, letters, documents--with a minimum of trouble and expense.
