BIBLIOGRAPHY ON SPARK PLUGS

This letter circular is in two parts. Part I gives references relating to work done on spark plugs and their components at the National Bureau of Standards. Part II gives references to other work under the following headings: (a) Spark Plug Material, (b) Manufacture of Spark Plugs, (c) Spark Plug Testing and Analysis.

Two of the publications listed in Part I, (20) and (23), can be obtained at the prices indicated from the Superintendent of Documents, Government Printing Office, Washington, D.C. The remaining Government publications are out of print but can usually be found at leading libraries. Papers in technical journals must be consulted at libraries or obtained from the publishers as the Bureau cannot supply copies of these journals or reprints from them.

For convenience, the publications cited frequently are designated by the following abbreviations:

(J) Journal American Ceramic Society. Am. Ceramic Soc., 2525 North High Street, Columbus, Ohio.

(T) Technologic Paper, National Bureau of Standards.
