

# Federal Implementation Guideline for Electronic Data Interchange 

## ASC X12 003040 Transaction Set 843 Response to Request for Quotation (Revision 1)

## Implementation Convention

$T$he National Institute of Standards and Technology was established in 1988 by Congress to "assist industry in the development of technology . . . needed to improve product quality, to modernize manufacturing processes, to ensure product reliability . . . and to facilitate rapid commercialization . . . of products based on new scientific discoveries."

NIST, originally founded as the National Bureau of Standards in 1901, works to strengthen U.S. industry's competitiveness; advance science and engineering; and improve public health, safety, and the environment. One of the agency's basic functions is to develop, maintain, and retain custody of the national standards of measurement, and provide the means and methods for comparing standards used in science, engineering, manufacturing, commerce, industry, and education with the standards adopted or recognized by the Federal Government.

As an agency of the U.S. Commerce Department's Technology Administration, NIST conducts basic and applied research in the physical sciences and engineering, and develops measurement techniques, test methods, standards, and related services. The Institute does generic and precompetitive work on new and advanced technologies. NIST's research facilities are located at Gaithersburg, MD 20899, and at Boulder, CO 80303. Major technical operating units and their principal activities are listed below. For more information contact the Publications and Program Inquiries Desk, 301-975-3058.

## Reports on Information Technology

The National Institute of Standards and Technology (NIST)'s Information Technology Laboratory (ITL) develops standards and guidelines, provides technical assistance, and conducts research for computers and resources. As part of the overall federal effort to establish a single face to industry for conducting electronic commerce, ITL has been designated as the organization responsible for coordinating the development of Federal Implementation Conventions (ICs) for Electronic Data Interchange (EDI). ICs are defined by functional-area experts who create and select options from standard EDI Transaction Sets to yield the implementations to be used for practical EDI. These ICs are made available to federal agencies and industry by electronic means and this Special Publication Series.

## 843 Response to Request for Quotation

## Functional Group ID=RR

## Introduction:

This Draft Standard for Trial Use contains the format and establishes the data contents of the Response to Request for Quotation Transaction Set (843) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to provide potential buyers with price, delivery schedule, and other terms from potential sellers of goods and services, in response to a request for such information.

## Notes:

1. Use this transaction set to respond to solicitations for quotes for federal government small purchases, or to amend or cancel a quote.
2. In this convention, the terms solicit and quote are used generically and can encompass such other terms as IFB and bid; RFP and proposal.
3. Use, if available, segments in table 1 when the quote contains one line item or multiple line items and the data applies to all line items. Use the corresponding segment in table 2 when the quote contains multiple line items and the data varies by line item.
4. When BQR01 is code 02,03 , or 04 , use only those segments and data elements that are mandatory or necessary to add, delete, or change data in the quote.

## Heading:

| Must Use | 015 | AMT | Monetary Amount | M | 1 |
| Must Use | 020 | SE | Transaction Set Trailer | M | 1 |

## Transaction Set Notes

1. If segment LIN is used, do not use LIN01.
2. The SCH segment is used to specify various quantities of items ordered that are to be scheduled. When this segment is used the unit of measurement code (SCH02) should always be identical to the unit of measurement code in the associated PO1 segment (PO103) and the sum of values of quantity (SCH01) should always equal the quantity ordered (PO102) in the PO1 segment.
3. Number of line items (CTT01) is the accumulation of the number of PO1 segments. If used, hash total (CTT02) is the sum of the value of quantities ordered (PO102) for each PO1 segment

# Segment: <br> BQR <br> Beginning Segment for Response to Request For Quotation 

 Position: 020Loop:
Level:
Usage:

To indicate the beginning of a Response to Request for Quote Transaction Set and transmit identifying numbers and dates

Syntax Notes:

Notes:

Data Des. Must Use BQR01

1 If $B Q R 05$ is present, then $B Q R 04$ is required.

## Data Element Summary

have been issued, cite the date of the last amendment.

Date/Time Qualifier
X ID $3 / 3$
Code specifying type of date or time, or both date and time
$098 \quad$ Bid (Effective)
Use to indicate the date of the bid.
Date
O DT 6/6
Date (YYMMDD)
Bid Type Response Code
O ID $2 / 2$
Code indicating the type of response to the request for bid or quote
When BQR06 is code BW, DQ, or UQ use the 1/N9/290 loop to explain or specify exceptions to the solicitation.

AB Alternate Bid
Use to indicate a substitute product is being offered or other variations from the solicited item are being proposed. When this code is used, specific information must be provided in the 2/P01/010 loop. If other exceptionts are being taken, use code BW.
BI Bid Without Exception
When this code is used, only the mandatory segments, required data elements, and segments to provide pricing, cost iuformation, certifications, representations, or fill-in information are necessary.
BW Bid With Exception (Request for Information) When possible, exception should be provided within the transaction set, e.g., delivery exceptions in DTM, LDT, SDQ, or SCH segment, packaging exceptions in the PKG segment, etc. Whet not possible, use either the $1 / N 9 / 290$ or $2 / N 9 / 400$ loop to provide the exceptions.
DQ Decline to Quote
Use to indicate that the responding party does not quote on the item(s) or services solicited.

Unable to Quote
Use to indicate that the responding party normally does quote on the items or services solicited but is unable to do so on the instant solicitation.

## Segment: RHF Reference Numbers

Position: 050
Loop:
Level: Heading
Usage: Optional
Max Use: 12
Purpose: To specify identifying numbers.
Syntax Notes: 1 At least one of REF02 or REF03 is required.
Semantic Notes:
Comments:
Notes: 1. Use this 1/REF/050 segment to identify the reference numbers that apply to all of the line items. When the reference number varies by line item, use 2/REF/100 segment to cite the number.
2. Must use at least one repetition citing code PR to indicate the quoting party's quotation number.

|  | Data Element Summary |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Ref. | Data |  |  |
|  | Des. | Element | Name | Attributes |
| Must Use | REF01 | 128 | Reference Number Qualifier | M ID 2/2 |
|  |  |  | Code qualifying the Reference Number. |  |

When codes CT or W6 are used, one iteration of the 1/DTM/150 segment is REQUIRED. Use code 036 in DTM01 and provide the expiration date of the cited schedule or contract in DTM02.

| 2G | Amendment <br> Use only when receiving application does not <br> concatenate the RFQ reference number and the <br> amendment number, if applicable. If the receiving <br> application concatenates the numbers, cite them both <br> in BQR02. |
| :--- | :--- |
|  | Statement of Work (SOW) <br> Description of a product or service to be procured under <br> a contract; statement of requirements <br> Package Number |
| A7 |  |

| IX | Item Number |
| :---: | :---: |
|  | Use to indicate a FSC special item number. |
| K6 | Purchase Description |
| K7 | Paragraph Number |
| KS | Solicitation |
|  | A discreet number assigned by the purchasing activity to differentiate between different solicitations |
| LT | Lot Number |
| P4 | Project Code |
|  | Use to indicate the project number applicable to this solicitation. |
| PR | Price Quote Number |
|  | Must use to indicate the quoting party's quotation number. Each change to a quote should be assigned a new number or at least have an extension to the original number, e.g., if the original number is 12345 , changes can be identified by $-1,-2$, etc. |
| QC | Product Specification Document Number |
|  | Model designation of replacement component |
| RQ | Purchase Requisition No. |
|  | Use, as appropriate, to identify an internal number such as a requisition, purchase request or purchase request order number. When citing a purchase request number, concatenate its line item number with the purchase request number if it is necessary to transmit both numbers. |
| RS | Returnable Container Serial Number |
| S2 | Military Specification Number (MILSPEC) |
| S3 | Specification Number |
| TN | Transaction Reference Number |
|  | Use to indicate a unique reference number of a related transaction set (e.g., an 841 transaction set carrying a related technical specification or drawing, or 805,251,etc.). Each transaction set has a unique number. In the case of the 841 transaction set, that number is carried in SP102. Cite the date of the transaction set in the DTM segment using code 368 in DTM01. |
| TP | Test Specification Number |
| W2 | Weapon System Number |
|  | Identifies a weapon system |
| W6 | Federal Supply Schedule Number |
|  | Identifies an item with a two-digit group number, twodigit part number, and one-character section letter Use to indicate a Federal Supply Schedule in which the quoted item can be found. The expiration date MUST be noted in the 1/DTM150 segment. When used, and if known, concatenate the contract number for the cited FSS. |
| ZF | Contractor Establishment Code (CEC) |
|  | Goverment identifier to designate a contractor; it is nine characters, eight numeric and a final alpha Mutually Defined |
| ZZ | Use to indicate anotler type of reference number. |

REF02 $127 \quad$\begin{tabular}{l}

| When used, identify the nature of the number in |
| :--- |
| REF03. | <br>

Reference Number <br>
Reference number or identification number as defined for a particular <br>
Transaction Set, or as specified by the Reference Number Qualifier. <br>
Description <br>
A free-form description to clarify the related data elements and their content <br>

1. Use to identify additional information related to the number of cited in <br>
REF02.
\end{tabular}
2. Use is discouraged.

| Segment: | FOB F.o.B. Related Instructions |
| :---: | :---: |
| Position: | 080 |
| Loop: |  |
| Level: | Heading |
| Usage: | Optional |
| Max Use: | >1 |
| Purpose: | To specify transportation instructions relating to shipment |
| Syntax Notes: | 1 If FOB03 is present, then FOB 02 is required. |
|  | 2 If FOB 04 is present, then FOB 05 is required. |
|  | 3 If FOB 07 is present, then FOB 06 is required. |
|  | 4 If FOB08 is present, then FOB 09 is required. |
| Semantic Notes: | 1 FOB01 indicates which party will pay the carrier. |
|  | 2 FOB02 is the code specifying transportation responsibility location. |
|  | 3 FOB06 is the code specifying the title passage location. |
|  | 4 FOB08 is the code specifying the point at which the risk of loss transfers. This may be different than the location specified in FOB02/FOB03 and FOB06/FOB07. |
| Comments: |  |
| Notes: | 1. Use this $1 /$ FOB/080 segment if the FOB point and the acceptance location apply to all of the line items. When the $F O B$ points or acceptance locations vary by line item, use the $2 / F O B / 180$ segment. |
|  | 2. Use this segment only if the proposed FOB point is different than the FOB point specified in the solicitation. |

## Data Element Summary

|  | FOB03 | 352 | geographical location, use in conjunction with one iteration of the appropriate N1 loop, using code KX in N101. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Description | 0 | AN 1/80 |
|  |  |  | A free-form description to clarify the related data elements and their content |  |  |
|  |  |  | 1. Use to identify the FOB point only when FOB02 is code $Z Z$. |  |  |
|  |  |  | 2. Use is discouraged. |  |  |
| Not Used | FOB04 | 334 | Transportation Terms Qualifier Code Code identifying the source of the transportation terms | 0 | ID $\mathbf{2} / 2$ |
| Not Used | FOB05 | 335 | Transportation Terms Code Code identifying the trade terms which apply to the shipmen responsibility | $\mathbf{X}$ | ID $3 / 3$ <br> sportation |

## Data Element Summary

| Segment: | ITD Terms of Sale/Deferred Terms of Sale |  |
| :---: | :---: | :---: |
| Position: | 130 |  |
| Level: | Heading |  |
| Usage: | Optional |  |
| Max Use: | 5 |  |
| Purpose: | To specify terms of sale |  |
| Syntax Notes: | 1 If ITD03 is present, then at least one of ITD04 ITD05 or ITD13 is required. |  |
|  | 2 If ITD08 is present, then at least one of ITD04 ITD05 or ITD13 is required. |  |
|  | 3 If ITD09 is present, then at least one of ITD10 or ITD11 is required |  |
| Semantic Notes: | $1 \text { ITD }$ | 15 is the percentage applied to a base amount used to determine a late payment arge. |
| Comments: | 1 If the ITD | e code in ITD01 is "04", then ITD07 or ITD09 is required and either ITD10 or 11 is required; if the code in ITD01 is "05", then ITD06 or ITD07 is required. |
| Notes: | 1. Only use this $1 / I T D / 130$ segment to identify discount terms that apply to all of the line items. If the discount varies by line item use the $2 / I T D / 150$ segment. |  |
|  | 2. Payment method was provided at time of registration. Changes to that data must be made by submitted through a registration data change using the 838 transaction set. |  |
|  | Data Element Summary |  |
|  | Data |  |
|  | Element | Name $\quad$ Attributes |
|  | $336$ | Terms Type Code O ID 2/2 |
|  |  | Code identifying type of payment terms |
|  |  | Use to indicate that fast payment is requested. |
|  |  | 21 Fast Pay |
| ITD02 |  | Code indicating that an invoice is subject to accelerated payment |
|  | 333 | Terms Basis Date Code $\quad$ O ID 1/2 |
|  |  | Code identifying the beginning of the terms period |
|  |  | Use any code. |
| ITD03 | Refer to 003040 Data Element Dictionary for acceptable code values. |  |
|  | 338 | Terms Discount Percent O R 1/6 |
|  |  | Terms discount percentage, expressed as a percent, available to the purchaser if an invoice is paid on or before the Terms Discount Due Date |
| ITD04 | 370 | Terms Discount Due Date X DT 6/6 |
|  | Date payment is due if discount is to be earned |  |
| ITD05 | 351 | Terms Discount Days Due X N0 1/3 |
|  |  | Number of days in the terms discount period by which payment is due if terms discount is earned |
| ITD06 | 446 | Terms Net Due Date O DT 6/6 |
|  |  | Date when total invoice amount becomes due |
| ITD07 | 386 | Terms Net Days O N0 1/3 |
|  |  | Number of days until total invoice amount is due (discount not applicable) |
| ITD08 | 362 | Terms Discount Amount O N2 1/10 |
|  |  | Total amount of terms discount |
|  |  | Use to prevent differences that can result from rounding off methods. |
| ITD09 | 388 | Terms Deferred Due Date O DT 6/6 |
|  |  | Date deferred payment or percent of invoice payable is due |
| ITD10 | 389 | Deferred Amount Due $\quad$ X $\mathbf{N}$ 1/10 |
|  |  | Deferred amount due for payment |
| ITD11 | 342 | Percent of Invoice Payable $\quad$ X R 1/5 |

## Segment: <br> DTM <br> Date/Time Reference

Position:
150
Loop:
Level:
Usage:
Max Use:
Purpose:
Syntax Notes:
Heading
Optional
10
To specify pertinent dates and times
1 At least one of DTM02 DTM03 or DTM06 is required.
2 If either DTM06 or DTM07 is present, then the other is required
Semantic Notes:

Notes:

|  |  |
| :---: | :---: |
| Must Use | Ref. <br> Des. <br> DTM01 |

Ref.

1. Use this 1/DTM/150 segment to specify a different delivery date than the date specified in the solicitation when it is expressed as an actual date. If the delivery schedule is expressed as a set period of time after the occurrence of some event, use the LDT segment. If the LDT segment is used, do not use this segment.
2. Also use this segment to quote the expiration date or to provide the date of a FSS or other contract.
3. Use this segment to provide dates that apply to all of the line items. When the dates vary by line iten use the 2/DTM/200 segment.
4. Use this segment to identify exceptions being taken to the requirements contained in the solicitation or when information related to the quote is being provided.

## Data Element Summary

## Data

Element Name Attributes
374 Date/Time Qualifier M ID 3/3
Code specifying type of date or time, or both date and time

Date coverage expires
Use to indicate the expiration data of a FSS or contract. This relates to information provided in the 1/REF/050 segment specifically for codes CT and W6.

Ship Not Before
Do Not Deliver After
Do Not Deliver Before
1st Schedule Delivery
1st Schedule Ship
Promised for Delivery
Use to indicate a delivery date that is different than the date specified in the solicitation.
Requested for Delivery (Week of)
Use to indicate the beginning date of the week.
Service Period Start
Use to indicate the performance period for a service.
Service Period End
Use to indicate the performance period for a service.
Month Ending
Contract Start
The start date for a contract
Contract Completion

| Segment: | HDT Lead Time |
| :---: | :---: |
| Position: | 160 |
| Loop: |  |
| Level: | Heading |
| Usage: | Optional |
| Max Use: | 12 |
| Purpose: | To specify lead time for availability of products and services |
| Syntax Notes: |  |
| Semantic Notes: | 1 LDT04 is the effective date of lead time information. |
| Comments: | 1 LDT02 is the quantity of unit of time periods. |
| Notes: | 1. Use this 1/LDT/160 segment to specify a delivery schedule that is expressed as a period of time from a stated event, e.g., receipt of the order. The previous DTM segment is used when the delivery date is expressed as an actual date. If the DTM segment is used, this segment is not used. |
|  | 2. Also use this segment to identify the length of the quote acceptance period allowed by the bidding party. |
|  | 3. Use this segment when the quote delivery schedule is a specified period of time after the occurrence of some event and it applies to all of the line items. If the delivery schedule varies by line item use the 2/LDT/210 segment. |
|  | 4. Use this segment to identify exceptions being taken to the requirements contained in the solicitation or when information related to the quote is being provided. |

## Data Element Summary

Use to indicate a flexible time period, e.g., X number of days or less.
MO Month
QY
Quarter of a Year
SA Semiannual
WK
Weeks
LDT04 373 Date
Date (YYMMDD)
Use, as applicable, to indicate the effective date of the lead time. For example delivery will be in 20 days, effective June 1, 1994.

Time
Use to indicate the length of a warranty period. Specify the number of day, weeks, months, or years in MEA03 and the time period in MEA04-I.

739 Measurement Value
The value of the measurement
C001 Composite Unit of Measure
To identify a composite unit of measure (See Figures Appendix for examples of use)
355 Unit or Basis for Measurement Code MI ID 2/2 Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

## 1. Use any code.

2. A conversion table may be required to convert Agency codes to the codes used by ASC X12.
Refer to 003040 Data Element Dictionary for acceptable code values.
1018
Exponent
O $\quad$ R $1 / 15$
Power to which a unit is raised
649 Multiplier
O $\quad$ R $1 / 10$
Value to be used as a multiplier to obtain a new value
355 Unit or Basis for Measurement Code
O ID $2 / 2$
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken
1018 Exponent
O $\quad$ R $1 / 15$
Power to which a unit is raised
649 Multiplier
O R $1 / 10$
Value to be used as a multiplier to obtain a new value
355 Unit or Basis for Measurement Code
O ID 2/2
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken
1018 Exponent
O R 1/15
Power to which a unit is raised
649 Multiplier
O $\quad$ R $1 / 10$
Value to be used as a multiplier to obtain a new value
Unit or Basis for Measurement Code $\quad$ O ID 2/2
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken
Exponent O R $\quad$ O $/ 15$
Power to which a unit is raised
649 Multiplier
O $\quad$ R $1 / 10$
Value to be used as a multiplier to obtain a new value
Unit or Basis for Measurement Code
O ID 2/2
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken
Exponent $\quad$ O $\quad$ R $1 / 15$ Power to which a unit is raised
649 Multiplier
O $\quad$ R $1 / 10$
Value to be used as a multiplier to obtain a new value
Range Minimum
X $\quad$ R $1 / 10$
The value specifying the minimum of the measurement range
3. When MEA01 is code CT or MEA02 is code PO, use to specify the variation in quantity under.
4. When MEA01 is code PM, use to specify the minimum quantity or dollar

|  |  |  | value of each order that can be placed against an indefinite instrument. |
| :---: | :---: | :---: | :---: |
|  | MEA06 | 741 | Range Maximum X R 1/10 |
|  |  |  | The value specifying the maximum of the measurement range |
|  |  |  | 1. When MEA01 is code CT or MEA02 is code PO, use to specify the variation over. |
|  |  |  | 2. When MEA01 is code PM, use to specify the maximum quantity or dollar value for an order that can be placed against an indefinite instrument. |
| Not Used | MEA07 | 935 | Measurement Significance Code O ID 2/2 Code used to benchmark, qualify or further define a measurement value |

| :---: |
| Des. |
| PWK01 |

210

Heading
Optional
25
To identify the type and transmission of paperwork or supporting information
1 If either PWK05 or PWK06 is present, then the other is required.
1 PWK05 and PWK06 may be used to identify the addressee by a code number.
2 PWK07 may be used to indicate special information to be shown on the specified report.
3 PWK08 may be used to indicate action pertaining to a report.
Notes: Use this $1 / P W K / 210$ segment to indicate either paperwork required in the solicitation (PWK segment in the 840), or other paperwork is being provided by means other than within this transaction set. If the paperwork is applicable to a specific line item, use the 2/PWK/070 segment.

## Data Element Summary

Data
Element Name
755 Report Type Code
Attributes
M ID 2/2
Code indicating the title or contents of a document, report or supporting item A request has been submitted to $A S C$ X12 to add codes for: Certified Cost and Price Data, and Attachment. We expect these codes to be available for use in ASC X12 Version/Release 3050. Since these codes are not essential to small purchases, no attempt has been made to use surrogate codes.

24 Non-Contractual Plan
A request has been submitted to ASC X12 to add a code for Union Agreement. We expect this code to be available for use in ASC X12 Version/Release 3050. In the meantime, use this code for Union Agreement.
25 Purchase Plan
Use to indicate the seller is providing a make or buy plan.
35 Subcontractor Plan
C1 Cost Data Summary
Use to indicate cost and price data is being provided.
DW Drawing(s)
IT Certified Inspection and Test Results
MS Material Safety Data Sheet
SD Support Data for a Request for Quote
Use to indicate that supporting technical documentation, e.g., technical proposal, etc. are being provided.
US "BUY AMERICA" Certification of Compliance
PWK02 756 Report Transmission Code
O ID 2/2
Code defining timing, transmission method or format by which reports are to be sent
While any listed code can be used, code EL is preferred when the indicated paperwork can be provided electronically using one of the ASC X12 transaction sets specifically designed for the purpose.
BM
By Mail
EL Electronically Only

| Segment: | PKG Marking, Packaging, Loading |  |
| :---: | :---: | :---: |
| Position: | 220 |  |
| Loop: |  |  |
| Level: | Heading |  |
| Usage: | Optional |  |
| Max Use: | 25 |  |
| Purpose: | To describe marking, packaging, loading, and unloading requirements |  |
| Syntax Notes: | 1 At least one of PKG04 PKG05 or PKG06 is required. |  |
|  | 2 If PKG04 is present, then PKG01 is required. |  |
|  | 3 If PKG05 is present, then PKG01 is required. |  |
| Semantic Notes: Comments: | 1 PKG04 should be used for industry-specific packaging description codes. |  |
|  | 1 Use the MEA (Measurements) Segment to define dimensions, tolerances, weights, counts, physical restrictions, etc. |  |
|  | 2 If PKG01 = ' $\mathrm{F}^{\prime}$, then PKG05 is used. If $\mathrm{PKG} 01={ }^{\prime} \mathrm{S}$ ", then PKG04 is used. If PKG01 = ' X ", then both PKG04 and PKG05 are used. |  |
|  | 3 Use PKG03 to indicate the organization that publishes the code list being referred to. <br> 4 Special marking or tagging data can be given in PKG05 (description). |  |
| Notes: | 1. Use this $1 / P K G / 220$ segment when packaging is different from the requested packaging in the solicitation or if packaging requirements were at the bidders option. |  |
|  | 2. A request has been submitted to ASC X12 to add MIL-STD 2073-2C codes to ASC X12 standards. If approved, those codes will be available for use in ASC X12 Version/Release 3050 and they will be carried in PKG02/03/04. Until those codes are available, packaging information can be transmitted as a MIL-STD 2073-2C code string (as is currently done in a paper instrument) in PKG05. |  |
|  | 3. Use this $1 / P K G / 220$ segment if the packaging requirements apply to all of the line items. If the packaging requirements vary by line item, use the $2 / P K G / 080$ segment to provide the information. |  |
| Data Element Summary |  |  |
|  | Data |  |
| $\xrightarrow[\text { PKG0 } 01]{\text { Des. }}$ | $\frac{\text { Element }}{349}$ | Name Attributes |
|  |  | Item Description Type $\quad$ X ID 1/1 |
| Code indicating the format of a description |  |  |
|  |  | F Free-form |
|  |  | Use to indicate that the packaging information is provided as free form text. |
| PKG02 | 753 | Packaging Characteristic Code O ID 1/5 |
|  |  | Code specifying the marking, packaging, loading and related characteristics being described |
|  |  | A request has been submitted to ASC X12 to add the MIL-STD 2073 2-C packaging characteristic codes e.g., CD- Cleaning/Drying Procedures, CT Cushioning Thickness, etc. We expect those codes will be available for use in ASC X12 Version/Release 3050. In the meantime, use code 65 when providing the MIL-STD 2073-2C code string in PKG05. |
|  |  | 65 Core Characteristics |
|  |  | Use to indicate MIL-STD 2073-2C packaging codes. Cite the code string in PKG05. |
| PKG03 | 559 | Agency Qualifier Code X ID 2/2 |
|  |  | Code identifying the agency assigning the code values |
|  |  | DD Department of Defense |
|  |  | Responsible for Military Specification |
|  |  | GS General Services Administration (GSA) |
|  |  | Responsible for Federal Specification |

Responsible for Federal Specification

Mutually Defined
Use to indicate the Federal Government other than the Department of Defense or General Services Administration. Data maintenance has been submitted to ASC X12. If approved a code for Federal Government will be available in ASC X12 Version/Release 3050.

Not Used

Not Used PKG06

754 Packaging Description Code
X AN $1 / 7$
A code from an industry code list which provides specific data about the marking, packaging or loading and unloading of a product
PKG05 352 Description $X \quad$ AN 1/80
A free-form description to clarify the related data elements and their content Use to identify a string of MIL-STD-2073-2C packaging codes or to identify packaging information in free form text. The MIL-STD-2073-2C code string uses a positional and sequential system. Coded data must appear in the sequence and number of positions specified in Appendix F of MIL-STD-2073-1. Zeros shall be inserted in the code string for data that is not being provided. A comma(,) will be used as a delimiter between the data in the code string. Use of this data element is discouraged.
Code identifying loading or unloading a shipment

Segment: TD4 Carrier Details (Special Handling or Hazardous Materials or Both)
Position: 260
Loop:
Level: Heading
Usage: Optional
Max Use: 5
Purpose: To specify transportation special handling requirements, or hazardous materials information, or both
Syntax Notes: 1 At least one of TD401 TD402 or TD404 is required.
2 If TD402 is present, then TD403 is required.
Semantic Notes:
Comments:
Notes: Use this 1/TD4/260 segment to provide hazardous material information that applies to all of the line items. If the hazardous material information varies by line item, use the 2/TD4/270 segment.

Purpose: To transmit identifying numbers and descriptive information as specified by the reference number qualifier
Syntax Notes: 1 At least one of N902 or N903 is required.
2 If N906 is present, then N905 is required.
Semantic Notes:
1 N906 reflects the time zone which the time reflects.

Must Use $\quad$| Ref. |
| :--- |
| Des. |

| N901 |
| :--- |

1. Use this $1 / N 9 / 290$ loop to provide certifications, representations and fill-in information, as required in the solicitation ( $R R A$ segment) 840 transaction set, or to provide explanation when $B Q R 6$ is either code $D Q$ or UQ, or to specify exceptions (BQR06 is code BW) being take to some item in the solicitation that cannot be provided elsewhere in the transaction set.
2. Use this loop to identify the clause to which the bidder is responding with a certification, representation or fill-in information. This loop can also be used to cite the paragraph number or special instruction number in the solicitation that requires the bidder to provide information, or to cite the segment sequence number from the 840 request for quote transaction set to which the bidder is taking exception.
3. Use this loop when required information is general in nature and not applicable to a line item. To provide information applicable to a line item, use the 2/N9/400 loop.
4. In all of the above circumstances use the N9 segment to indicate the type of data being provided and the MSG to actually provide it.
5. When an ALTERNATE(s) is/are relevant to a cited clause, the ALTERNATE alpha or numeric designation will be concatenate with the applicable clause number in N902.

Data Element Summary
Data

Element Name
Attributes M ID 2/2
128 Reference Number Qualifier
Code qualifying the Reference Number.
A request has been submitted to ASC X12 to add codes for circular number, which will be used to specify, an OMB circular number and Federal Information Resources Management Regulation. We expect these codes to be available for use in ASC X12 Version/Release 3050.

55 Sequence Number
When BQR06 is code DQ or UQ, use to indicate an explanation is being provided in the following MSG segment. Insert the word "Explanation" in N903 when using this code.
73 Statement of Work (SOW)
Description of a product or service to be procured under a contract; statement of requirements
DD Document Identification Code
Use to indicate a Department of Labor wage determination.
KR Response to a Request for Quotation Reference
A discrete number assigned for identification purpose to a response to a request for quotation

> Use to indicate fill-in information is being provided in the following MSG Segment as required by the number cited in N902.
> Request for Quotation Reference
> A discrete number assigned for identification purposes to a request for quotation When BQR06 is code BW, use to indicate exceptions are being taken to items in the solicitation. When used, insert the word" "Exception" in N903 and state the exception in the following MSG segment.

KW Certification
A number, taken from an acquisition regulation, which represents a specific certification that must be made by a prospective vendor before a contract or order can be placed with that vendor
Use to indicate a certification is being provided in the following MSG segment as required by the number cited in N902.
KX Representation
A number, taken from an acquisition regulation, which represents a specific representation that must be made by a prospective vendor before a contract or order can be placed with that vendor
Use to indicate a representation is being provided in the following MSG segment as required by the number cited in N902.
L1 Letters or Notes
Use to indicate general information, comments or notes. When used, insert the word "NOTE" in N903 and provide the information in the following MSG segment.

Reference number or identification number as defined for a particular Transaction Set, or as specified by the Reference Number Qualifier.
Free-form Description
$X \quad$ AN $1 / 45$
Free-form descriptive text
Date
O DT 6/6
Date (YYMMDD)
If the date of a clause requiring a certification, representation or fill-in information was specified in the solicitation and the clause is listed in N902, repeat the date in this data element. When the date is used it will be in the YYMMDD format so a clause date should always end with the numeric 01 indicating the first day of the month. This rule is necessary to comply with ASC X12 syntax. Use also for the date of a department of labor wage determination.

Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where $\mathrm{H}=$ hours $(00-23), \mathrm{M}=$ minutes ( $00-$ 59), $\mathrm{S}=$ integer seconds $(00-59)$ and $\mathrm{DD}=$ decimal seconds; decimal seconds are expressed as follows: $\mathrm{D}=$ tenths $(0-9)$ and $\mathrm{DD}=$ hundredths $(00-99)$ Time Code O ID 2/2
Code identifying the time. In accordance with International Standards Organization standard 8601, time can be specified by a + or - and an indication in hours in relation to Universal Time Coordinate (UTC) time; since + is a restricted character, + and - are substituted by P and M in the codes that follow

> Use to indicate the responding organization is bidding on behalf of an organization named in a previous iteration of the N1 loop.

BY Buying Party (Purchaser)
Use to indicate the purchasing or soliciting office or activity.
CP Party to Receive Cert. of Compliance
Use only when the address is different from the purchasing or soliciting office or activity.
IC Intermediate Consignee
Use to indicate a freight forwarder.
KX Free on Board Point
Use to indicate another FOB point when it has been described by a specific address rather than as a code indicating either origin or destination.
KY Technical Office
Use to identify the technical office that has cognizance over the technical portion of the solicitation, if different than the office originating the solicitation.
Inspection Location
Place where the item was viewed or inspected
Used to identify the inspection location when it has to be described as an address rather than a location such as origin or destination.
Manufacturer of Goods
Manufacturing Plant
Use to indicate the manufacturing facility when it is different from the contractor or the contractor's mailing address.
Preparer
The firm, organization, or individual who determines the tax liability from information supplied by the taxpayer

## Remit To

Use to indicate the place to send remittance when it is a choice from amoug more than one remit to addresses already on file. When used, this address must coincide with an address previously placed on file as part of the registration process. Do not use when payment is to be made to a single address which is already on file as a part of the registration process. Selling Party
Service Performance Site
When services are contracted for, this describes the organization for whom or location address at which those services will be performed
Use to indicate a location where a service, e.g., grass cutting, will be performed, if other than at the selling party's address.
Mark-for Party
The party for whom the needed material is intended Use, when applicable, only when the inclusion of this address is necessary to prepare a quote. Otherwise, when applicable, include in the resulting purchase order.

Identification Code Qualifier
X ID 1/2
Code designating the system/method of code structure used for Identification Code (67)

1. Use, when applicable, to identify the named party.
2. A request has been submitted to $A S C X 12$ to add a code for Contractor Establishment Code. We expect this code to be available for use in the ASC X12 Version/Release 3050.
3. While Federal EDI will use the DUNS number, other numbers may be required for a period of transition in order to cross-reference existing data bases with new procurement action.

1

9

FA

Identification Code
Code identifying a party or other code
Entity Relationship Code
O ID 2/2
Code describing entity relationship
Entity Identifier Code
O ID 2/2
D-U-N-S Number, Dun \& Bradstreet Use of the DUNS or DUNS+4 is preferred over any other coded number to identify a named party. Use of this code or code 9 is REQUIRED when N101 is code SE.
D-U-N-S +4 , D-U-N-S Number with Four Character Suffix
Use of the DUNS or DUNS 4 is preferred over any other coded number to identify a named party. Use of this code or code 1 is REQUIRED when N101 is code SE.
Department of Defense Activity Address Code (DODAAC)
Use to indicate a DoD or civilian agency Activity Address Code.
Commercial and Government Entity (CAGE)
Use to identify vendors with CAGE codes.
Military Assistance Program Address Code (MAPAC)
Contained in the Military Assistance Program Address Directory (MAPAD); represents the location of an entity
Use to identify a MAPAC address.
Facility Identification
Use to identify a vendor facility that cannot be identified by a CAGE code or DUNS number.

Code identifying an organizational entity, a physical location, or an individual

$\frac{\text { Element }}{366}$
Name
Attributes
Contact Function Code
M ID 2/2 Code identifying the major duty or responsibility of the person or group named Use to identify individuals who can be contacted regarding the solicitation.

| AA | Authorized Representative |
| :---: | :---: |
|  | Use to indicate an individual empowered to legally bind the bidding company. |
| AF | Authorized Financial Contact |
| CE | Use to indicate the individual in the bidder's company who is responsible for cost and price data. Certifier |
|  | Use to indicate the individual who is making the certifications contained in this quote. |
| IC | Information Contact |
| KA | Authorized Negotiator |
| ME | Manufacturing |
|  | Use to indicate the manufacturing point of contact |
| PD | Project Director |
|  | Use to indicate the Investigator, i.e., the principal party who will work on a research effort. A request has been submitted to ASC X12 to add a code for investigator. We expect this code will be available for use in ASC X12 Version/Release 3050. In the meantime, use this code. |

PP Program Manager
SU Supplier Contact Use to indicate the point of contact for a supplier who has design control over a manufactured item.
93 Name
O AN 1/35

Free-form name
Cite the last name first, followed by the first name. Do not truncate the last name if whole name is longer than 35 characters. Instead, truncate the first name or use the initial of the first name.

Code identifying the type of communication number

| AU | Defense Switched Network <br> Department of Defense telecommunications system and <br> successor of the Automatic Voice Network <br> (AUTOVON) |
| :--- | :--- |
| EM | Electronic Mail <br> FX |
| IT | Facsimile <br> International Telephone |
| TE | Include country code. |
|  | Telephone <br> Use to indicate the commercial telephone number of <br> the named party. |

Communication Number
$X \quad$ AN $1 / 80$
Complete communications number including country or area code when applicable
When PER03 cites code TE, be sure to include the area code.
Communication Number Qualifier X ID 2/2
Code identifying the type of communication number
Use to identify a second communications number for the party cited in PER02. For example, if PER03/04 cites a commercial telephone number, PER05/06 can be used to cite an Electronic Mail address.

AU Defense Switched Network
Department of Defense telecommunications system and successor of the Automatic Voice Network (AUTOVON)
EM Electronic Mail
EX Telephone Extension
Use only if PER03 is used citing either code AU or TE.
FX Facsimile
IT International Telephone
Include country code.
TE Telephone
Use to indicate the commercial telephone number of the named party.
Communication Number
X AN 1/80
Complete communications number including country or area code when applicable

|  |  | Price per unit of product, service, commodity, etc. |
|  |  | Use to indicate the unit price for the line item. The total amount of the line item (quantity $x$ unit price) is calculated by the receiving application program. |

2 PO 101 is the line item identification.
3 PO106 through PO125 provide for ten (10) different product/service ID's per each item. For example: Case, Color, Drawing No., UPC No., ISBN No., Model No., SKU.

1. If the quote is for the exact item in the solicitation, PO101, PO102, PO103, PO104 are all that is required.
2. When BQR06 is code $A B$, use codes FS, $M F, M G, P W, Z B$, or other appropriate codes in PO106-PO125, as necessary, to adequately describe the item and to provide information regarding the item, its manufacturer, and its design control source.

Data Element Summary
Data
Element
Assigned Identification
Attributes

Alphanumeric characters assigned for differentiation within a transaction set To identify the item being quoted, this data element must contain whatever numeric or alpha characters that were provided in the solicitation.

Quantity ordered
Use to specify the quantity being quoted for the line item. If this quantity differs from the solicited quantity, use the PO3 segment to explain.

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken
2. A conversion table may be required to convert Agency codes to the codes used by ASC X12.
Refer to 003040 Data Element Dictionary for acceptable code values.
212 Unit Price
X R 1/14
Price per unit of product, service, commodity, etc.
Use to indicate the unit price for the line item. The total amount of the line item (quautity $x$ unit price) is calculated by the receiving application program.

| P0105 | 639 | Basis of Unit Price Code 0 O ID 2/2 |  |
| :---: | :---: | :---: | :---: |
|  |  | Code identifying the type of unit price for an item |  |
|  |  | 1. Use only if necessary to provide the basis of the quoted price, e.g., catalog, wholesale, etc. |  |
|  |  | 2. Use any code. |  |
|  |  | Refer to 003040 Data Element Dictionary for acceptable code values. |  |
| PO106 | 235 | Product | Qualifier O ID $2 / 2$ |
|  |  | Code identifying the type/source of the descriptive number used in Product/Service ID (234) |  |
|  |  | 1. P0106 through PO125 are used in pairs. For example, P0106 will contain a qualifier code and P0107 will contain information related to the qualifying code. So, if PO106 is code FS, then PO107 would carry the national stock number. |  |
|  |  | 2. If an equal or substitute product is being offered, as a minimum, include the national stock number, the manufacturer's part number (to indicate who has source control) and the Manufacturer (if other than the bidder). In addition, the entity who controls the design or who is manufacturing the item must be specified in the 2/N1/420 loop. |  |
|  |  | A8 | Exhibit Line Item Number |
|  |  |  | The line item of a document referenced in and appended to a procurement instrument which establishes a delivery requirement |
|  |  | CH | Country of Origin Code |
|  |  | CL | Color |
|  |  | CN | Commodity Name |
|  |  | F7 | End-Item Description |
|  |  |  | Item identifier describes an end-item associated with the use of the required material |
|  |  |  | Use to identify the end item, if applicable, to which the solicited items applies. |
|  |  | F8 | Next Higher Used Assembly |
|  |  |  | Item identifier describes the next higher assembly associated with the use of the required material Use to identify, if applicable, the next higher assembly to which the solicited iten applies. |
|  |  |  |  |
|  |  | FS | National Stock Number |
|  |  |  | The NSN shall be transmitted as a continuous set of numbers, and without the dashes. |
|  |  | FT | Federal Supply Classification |
|  |  |  | See Code Source 27 for the FSC's associated with this code. |
|  |  | KA | Engineering Data List |
|  |  |  | Use, if applicable, to indicate the list that contains the technical information related to the line item cited in PO101. |
|  |  | KB | Data Category Code |
|  |  |  | When P0101 is a CLIN or a SUBCLIN related to an exhibit, use to specify the data category of a CDRL. |
|  |  | LT | Lot Number |
|  |  | MF | Manufacturer |
|  |  |  | Use to indicute a manufacturer (in clear text) who does not have a CAGE code. When offering a |

Code identifying the type of unit price for an item

1. Use only if necessary to provide the basis of the quoted price, e.g., catalog, wholesale, etc.
2. Use any code.

Refer to 003040 Data Element Dictionary for acceptable code values.

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

1. PO106 throug P0125 are used in pair. For example, PO106 win canain code. So, if PO106 is code FS, then PO107 would carry the national stock number.
2. If an equal or substitute product is being offered, as a minimum, include the national stock number, the manufacturer's part number (to indicate who has source control) and the Manufacturer (if other than the bidder). In addition, the entity who controls the design or who is manufacturing the item must be specified in the $2 /$ N1/420 loop.

|  | substitute product, use of either this code or code $Z B$ is RECOMMENDED. |
| :---: | :---: |
| MG | Manufacturer's Part Number |
|  | Use is RECOMMENDED when BQR06 is code AB and the alternate or substitute item does not have an NSN. The part number should include the manufactures CAGE code. |
| N1 | National Drug Code in 4-4-2 Format |
|  | 4-digit manufacturer ID, 4-digit product ID, 2-digit trade package size |
| N2 | National Drug Code in 5-3-2 Format |
|  | 5 -digit manufacturer ID, 3-digit product ID, 2-digit trade package size |
| N3 | National Drug Code in 5-4-1 Format |
|  | 5-digit manufacturer ID, 4-digit product ID, 1-digit trade package size |
| N4 | National Drug Code in 5-4-2 Format |
|  | 5-digit manufacturer ID, 4-digit product ID, 2-digit trade package size |
| ND | National Drug Code (NDC) |
| PD | Part Number Description |
|  | Use to indicate a text description of an item. |
| PI | Purchaser's Item Code |
|  | Use to provide a text description of an item that has no other assigned identification number. |
| PN | Company Part Number |
| PU | Part Reference Number |
|  | Often on a part or subassembly drawing there is a reference number shown that is not a part number but may refer to a set of notes for use in fabrication, assembly, or in repairing the item; it may refer to a physical location within the product, such as location of a particular part on a truck engine, or to a reference to a circuit location on an electronic assembly |
|  | Use to indicate a number assigned by an industry not associated with a specific manufacturer. Do not use for national drug codes. |
| PW | Part Drawing |
|  | Use is RECOMMENDED, if applicable, when BQR06 is code $A B$. |
| SH | Service Requested |
|  | A numeric or alphanumeric code from a list of services available to the customer Serial Number |
| SN | Use to identify, if applicable, the serial number of the item cited in P0101. For example, if the solicitation is for the repair of a serial numbered aircraft engine. |
| SR | Substitute Product Number |
| SV | Service Rendered |
|  | Use to specify in text, the service being solicited. |
| SW | Stock Number |
|  | Use to indicate a local stock lumber. |
| SZ | Vendor Alphanumeric Size Code (NRMA) |
|  | Use to indicate the size of the item being solicited. |

Basis of Unit Price Code
X ID 2/2
Code identifying the type of unit price for an item

## Use any code.

| Position: 080 |  |  |
| Loop: | PO1 Optional |  |
| Level: | Detail |  |
| Usage: | Optional |  |
| Max Use: | 25 |  |
| Purpose: | To describe marking, packaging, loading, and unloading requirements |  |
| Syntax Notes: | 1 At least one of PKG04 PKG05 or PKG06 is required. |  |
|  | 2 If PKG04 is present, then PKG01 is requir |  |
|  | 3 If PKG05 is present, then PKG01 is required. |  |
| Semantic Notes: Comments: |  |  |
|  | 1 Use the MEA (Measurements) Segment to define dimensions, tolerances, weights, counts, physical restrictions, etc. |  |
|  | 2 If PKG01 = ' F ", then PKG05 is used. If PKG01 = " $\mathrm{S}^{\prime}$ ", then PKG04 is used. If PKG01 $=$ ' X ", then both PKG04 and PKG05 are used. |  |
|  | 3 Use PKG03 to indicate the organization that publishes the code list being referred to. <br> 4 Special marking or tagging data can be given in PKG05 (description). |  |
| Notes: | 1. Use this 2/PKG/080 segment when the packaging proposed is different from the requested packaging or if packaging requirements were at the option of the bidder. Use this segment when that packaging information applies to a specific line item. If the packaging information applies to all the line items, use the 1/PKG/220 segment. |  |
|  | 2. A request has been subinitted to ASC X12 to add MIL-STD 2073-2C codes to ASC X12 standards. If approved, those codes will be available for use in ASC X12 Version/Release 3050. and they will be carried in PKG02/03/04. Until those codes are available, packaging information can be transmitted as a MIL-STD 2073-2C code string (as is currently done in a paper instrument) in PKG05. |  |
| Data Element Summary |  |  |
| Ref. | Data |  |
| Des. | Element | Name Attributes |
| PKG01 | 349 | Item Description Type X ID 1/1 |
| Code indicating the format of a description |  |  |
|  |  | F Free-form |  |
|  | Use to indicate the packaging information is provided as free form text. |  |
| PKG02 | 753 |  |
|  |  | Code specifying the marking, packaging, loading and related characteristics being described |
|  |  | A request has been submitted to ASC X12 to add the MIL-STD 2073 2-C packaging characteristic codes e.g., CD - Cleaning/Drying procedures, CT Cushioning Thickness, etc. We expect those codes will be available for use in ASC X12 Version/Release 3050. In the meantime, use code 65 when providing the MIL-STD 2073-2C code string in PKG05. |
|  |  | 65 Core Characteristics |
|  |  | Use to indicate MIL-STD 2073-2C packaging codes. Cite the code string in PKG05. |

PKG03 559 Agency Qualifier Code
X ID 2/2
Code identifying the agency assigning the code values

| DD | Department of Defense <br> GS |
| :--- | :--- |

## Name Pack

## Attributes

O N0 1/6

Number of inner pack units per outer pack unit
Use to specify the number of items in a unit container or the number of unit containers in an intermediate container.

Size of supplier units in pack
Unit or Basis for Measurement Code
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

1. Use any code.
2. When PO404 is code UNT, use to specify the unit of measure applicable to the quantity cited in PO401.
3. A conversion table may be required to convert Agency codes to the codes used by ASC X12.
Refer to 003040 Data Element Dictionary for acceptable code values.
Packaging Code
O AN 5/5

|  |  | Code identifying the type of packaging; Part 1: Packaging Form, Part 2: Packaging Material |
| :---: | :---: | :---: |
|  |  | Use the appropriate 3 character part 1 code (PKG or UNT) and to comply with the X12 min/max attributes of this data element, use part 2 code 04. Part 2 code 04 should not be processed by the receiving application". |
|  |  | PKG Package |
|  |  | Use to indicate an intermediate container. $A$ request has been submitted to ASC X12 to add a code for Intermediate container. If approved, this code will be available in ASC X12 Version/Release 3050. In the meantime, use this code. |
|  |  | UNT Unit |
|  |  | Use to indicate a unit container. |
|  |  | 04 As Specified by the DOT |
|  |  | Use this part 2 code with part 1 code PKG or UNT to comply with the $X 12$ min/max attributes of this data element. |
| P0405 | 187 | Weight Qualifier O ID 1/2 |
|  |  | Code defining the type of weight |
|  |  | Use any code. |
|  |  | Refer to 003040 Data Element Dictionary for acceptable code values. |
| PO406 | 384 | Gross Weight per Pack $\quad$ X R $\quad 1 / 9$ |
|  |  | Numeric value of gross weight per pack |
|  |  | Use to specify the weight of a container. The weight shall be specified to 1 decimal place. |
| P0407 | 355 | Unit or Basis for Measurement Code X ID 2/2 |
|  |  | Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken |
|  |  | Use any code. |
|  |  | Refer to 003040 Data Element Dictionary for acceptable code values. |
| PO408 | 385 | Gross Volume per Pack $\quad$ X R 1/9 |
|  |  | Numeric value of gross volume per pack |
|  |  | 1. Use to specify the cube of a container. The cube shall be specified to 3 decimal places. |
|  |  | 2. This the cube of the item specified in PO404. |
| PO409 | 355 | Unit or Basis for Measurement Code X ID 2/2 |
|  |  | Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken |
|  |  | Use any code. |
|  |  | Refer to 003040 Data Element Dictionary for acceptable code values. |
| PO410 | 82 | Length O R 1/8 |
|  |  | Largest horizontal dimension of an object measured when the object is in the upright position |
|  |  | Use to identify the length of the item specified in P0404. |
| PO411 | 189 | Width $\quad$ O R 1/8 |
|  |  | Shorter measurement of the two horizontal dimensions measured with the object in the upright position <br> Use to identify the width of the item specified in PO404. |
| PO412 | 65 | Height O R 1/8 |
|  |  | Vertical dimension of an object measured when the object is in the upright position |
|  |  | Use to identify the height or depth (the terms are interchangeable) of the item specified in PO404. |

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken Use any code.
Refer to 003040 Data Element Dictionary for acceptable code values.

Name
Reference Number Qualifier
Code qualifying the Reference Number.

1. Use any code. Cited codes are Preferred.
2. When codes CT or W6 are used, one iteration of the 2/DTM/200 segment
is REQUIRED. Use code 036 (Expiration) in DTM01 and provide the
expiration date of the contract must be specified in DTM02.

|  | REF03. |
| :---: | :---: |
| EV | Receiver Identification Number |
|  | A unique number identifying the organization/site location designated to receive the current transmitted transaction set |
|  | Use to identify the office or other symbol of the requiring office responsible for ensuring the adequacy of the technical data. |
| HD | Department of Transportation Hazardous Number |
| HE | Hazardous Exemption Number |
| HN | Hazardous Certification Number |
| HO | Shipper's Hazardous Number |
| IJ | Standard Industry Classification (SIC) Code |
|  | Use to identify the SIC code of the cited line item. |
| IL | Internal Order Number |
|  | Use to identify the requisition number (e.g. the MILSTRIP/FEDSTRIP document number). |
| IX | Item Number |
| K0 | Approval Code |
|  | Use to indicate the approval code on a CDRL. Codes associated with code KO are found in code source 329. |
| K4 | Criticality Designator |
|  | A number assigned to a contract or order that expresses the relative importance of that contract or order and thereby assists the contractor in making performance decisions and assists in making production surveillance decisions |
|  | Use to indicate the surveillance criticality designator applicable to the line item. |
| K7 | Paragraph Number |
|  | Use to indicate a particular paragraph or section in a solicitation that contains information relative to the line item. |
| KA | Distribution List |
|  | Qualifies a list of addresses to which the distribution of something should be made |
|  | Use to indicate a general distribution list to which some item may be delivered. |
| KC | Exhibit Distribution List |
|  | Qualifies a list of addressees to which the distribution of a cited contract exhibit must be made |
|  | Use to indicate an exhibit distribution list to which data items on the CDRL are to be delivered. |
| KK | Delivery Reference |
|  | Use to indicate a Ship-To address list. |
| KL | Contract Reference |
|  | Use to indicate a reference number found in a contract or solicitation. |
| NS | National Stock Number |
| RQ | Purchase Requisition No. |
|  | Use, as appropriate, to identify an internal number such as a requisition, purchase request or purchase request order number. When citing a purchase request number, concatenate its line item number with the purchase request number if it is necessary to transmit |

S2 | Soth numbers. |
| :--- | :--- |
| Military Specification Number (MILSPEC) |
| Use if ant alternate or substitute item is offered. |

Specification Number
Use to indicate a specification other than a MILSPEC.
Use also when an alternate or substitute item is
offered.
Test Specification Number
Use if an alternate or substitute item is offered.

| Segment: | SAC Service, Promotion, Allowance, or Charge Information |
| :---: | :---: |
| Position: | 130 |
| Loop: | PO1 Optional |
| Level: | Detail |
| Usage: | Optional |
| Max Use: | 25 |
| Purpose: | To request or identify a service, promotion, allowance, or charge; to specify the amount or percentage for the service, promotion, allowance, or charge |
| Syntax Notes: | 1 At least one of SAC02 or SAC03 is required. |
|  | 2 If either SAC03 or SAC04 is present, then the other is required. |
|  | 3 If either SAC06 or SAC07 is present, then the other is required. |
|  | 4 If either SAC09 or SAC10 is present, then the other is required. |
|  | 5 If SAC11 is present, then SAC10 is required. |
|  | 6 If SAC13 is present, then at least one of SAC02 or SAC04 is required. |
|  | 7 If SAC14 is present, then SAC13 is required. |
| Semantic Notes: | 1 If SAC01 is "A" or "C", then at least one of SAC05, SAC07, or SAC08 is required. |
|  | 2 SAC05 is the total amount for the service, promotion, allowance, or charge. If SAC05 is present with SAC07 or SAC08, then SAC05 takes precedence. |
|  | 3 SAC10 alone is used to indicate a specific quantity which could be a dollar amount, that is applicable to service, promotion, allowance or charge. <br> SAC10 and SAC11 used together indicate a quantity range, which could be a dollar amount, that is applicable to service, promotion, allowance, or charge. |
|  | 4 SAC13 is used in conjunction with SAC02 or SAC04 to provide a specific reference number as identified by the code used. |
|  | 5 SAC14 is used in conjunction with SAC13 to identify an option when there is more than one option of the promotion. |
| Comments: | 1 SAC04 may be used to uniquely identify the service, promotion, allowance, or charge. In addition, it may be used in conjunction to further the code in SAC02. |
|  | 2 In some business applications, it is necessary to advise the trading partner of the actual dollar amount that a particular allowance, charge, or promotion was based on to reduce ambiguity. This amount is commonly referred to a "Dollar Basis Amount". It is represented in the SAC segment in SAC10 using the qualifier "DO" - Dollars in SAC09. |
| Notes: | Use this 2/SAC/130 segment to provide prices for services identified in the solicitation if the services vary by line item. If the services apply to all line items, use the 1/SAC/120 segment. |

Detail
Optional
10
To specify pertinent dates and times
1 At least one of DTM02 DTM03 or DTM06 is required.
2 If either DTM06 or DTM07 is present, then the other is required.

1. Use this 2/DTM/200 segment to provide a quote delivery date that is different from the date specified in the solicitation for specific line items. Use the 2/SCH/220 segment to describe a partial delivery date. Use the 2/LDT/210 loop if the delivery schedule is a set period of time after the occurrence of some event, e.g., the receipt of the order for a specific line item. If the SCH or LDT segment is used, do not use this segment to provide a quoted delivery date.
2. Use this segment to provide dates that apply to a specific line item. Use the 1/DTM/150 segment to provide dates that apply to all of the line items.

## Data Element Summary

Element
374

Name
Date/Time Qualifier M ID 3/3

Code specifying type of date or time, or both date and time
A request has been submitted to ASC X12 to add a code for Mid-Point (the date when half the effort will be completed). We expect this code will be available for use in ASC X12 3050. Since this is not applicable to small purchases, no attempt has been made to use a surrogate code.

> Expiration Date coverage expires Use to indicate the expiration date of a FSS or contract. This relates to information provided in the 2/REF/100 segment specifically for code CT and W6.

Do Not Deliver Before
1st Schedule Delivery
1st Schedule Ship
Promised for Delivery
Requested for Delivery (Week of)
Use to indicate the beginning date of the week.
Service Period Start
Use to indicate the quote the performance commencoment date for a service line item. Service Period End
Use to indicate the quote performance completion date for a service line item.
Month Ending
When this code is used cite the last date of the month. Last Item Delivery

The date the last item will be delivered to the customer

## Date (YYMMDD)

| Not Used | DTM03 | 337 | Time $\quad$ X TM 4/8 |
| :---: | :---: | :---: | :---: |
|  |  |  | Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where $\mathrm{H}=$ hours $(00-23), \mathrm{M}=$ minutes $(00-$ 59), $\mathrm{S}=$ integer seconds (00-59) and $\mathrm{DD}=$ decimal seconds; decimal seconds are expressed as follows: $\mathrm{D}=$ tenths ( $0-9$ ) and $\mathrm{DD}=$ hundredths (00-99) |
| Not Used | DTM04 | 623 | Time Code O ID 2/2 |
|  |  |  | Code identifying the time. In accordance with International Standards |
|  |  |  | Organization standard 8601 , time can be specified by a + or - and an indication in hours in relation to Universal Time Coordinate (UTC) time; since + is a restricted character, + and - are substituted by P and M in the codes that follow |
|  | DTM05 | 624 | Century O N0 2/2 |
|  |  |  | The first two characters in the designation of the year (CCYY) |
| Not Used | DTM06 | 1250 | Date Time Period Format Qualifier X ID 2/3 |
|  |  |  | Code indicating the date format, time format, or date and time format |
| Not Used | DTM07 | 1251 | Date Time Period X AN 1/35 |
|  |  |  | Expression of a date, a time, or range of dates, times or dates and times |

## Segment: LDT Lead Time

Position: 210
Loop: PO1 Optional
Level: Detail

> to a request for quotation When BQR06 is code BW, use to indicate exceptions are being taken to items in the solicitation. When used, insert the word "Exception" in N903 and state the exception in the following MSG segment. Certification A number, taken from an acquisition regulation, which represents a specific certification that must be made by a prospective vendor before a contract or order can be placed with that vendor Use to indicate a certification is being provided in the following MSG segment as required by the number cited in N902. Representation A number, taken from an acquisition regulation, which represents a specific representation that must be made by a prospective vendor before a contract or order can be placed with that vendor Use to indicate a representation is being provided in the following MSG segment as required by the number cited in N902. Letters or Notes Use to indicate general information, comments or notes. When used, insert the word "Note" in N903 and provide the information in the following MSG segment.

KX Representation

L1 Letters or Notes

Reference Number
X AN $1 / 30$
Reference number or identification number as defined for a particular Transaction Set, or as specified by the Reference Number Qualifier.
Free-form Description
$X$ AN 1/45
Free-form descriptive text
373 Date
O DT 6/6
Date (YYMMDD)
If the date of a clause requiring a certification, representation or fill-in information was specified in the solicitation and the clause is listed in N902, repeat the date in this elenent. When the date is used it will be in YYMMDD format so a clause date should always end with the numeric 01 indicating the first day of the month. This rule is necessary to comply with ASC X12 syntax. Use also for the date of a Department of Labor wage determination.

## Not Used N905

Not Used N906
Time expressed in 24 -hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where $\mathrm{H}=$ hours ( $00-23$ ), $\mathrm{M}=$ minutes ( $00-$ 59), $\mathrm{S}=$ integer seconds ( $00-59$ ) and $\mathrm{DD}=$ decimal seconds; decimal seconds are expressed as follows: $\mathrm{D}=$ tenths ( $0-9$ ) and $\mathrm{DD}=$ hundredths ( $00-99$ )
Time Code
0 ID 2/2
Code identifying the time. In accordance with International Standards Organization standard 8601 , time can be specified by a + or - and an indication in hours in relation to Universal Time Coordinate (UTC) time; since + is a restricted character, + and - are substituted by P and M in the codes that follow

| Segment: | N1 Name |
| :---: | :---: |
| Position: | 420 |
| Loop: | N1 Optional |
| Level: | Detail |
| Usage: | Optional |
| Max Use: | 1 |
| Purpose: | To identify a party by type of organization, name, and code |
| Syntax Notes: | 1 At least one of N102 or N103 is required. |
|  | 2 If either N103 or N104 is present, then the other is required. |
| Semantic Notes: <br> Comments: | 1 This segment, used alone, provides the most efficient method of providing |
|  | organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party. <br> 2 N105 and N106 further define the type of entity in N101. |
| Notes: | 1. Whenever possible, address information should be transmitted using code value contained in a combination of the N101, N103/04 data elements. Use N102 and N2-N4 segments only when it is necessary to transmit the full address. For example, if a vendor can be identified by a DUNS number, it is not necessary to transmit the vendors |
|  | full address since the relationship between the DUNS number and the vendors address can be established by accessing a data base in which the information is stored, having been put there at the time the vendor electronically registered as a federal government trading partner. |
|  | 2. Use this $2 / \mathrm{N} 1 / 420$ loop to identify organizations or people that apply to a specific line item. If the organizations or people apply to all of the line items, use the $1 / \mathrm{N} 1 / 310$ loop. |

Data Element Summary

Use to indicate another FOB point when it has been described by a specific address rather than as a code indicating either origin or destination.
Use to identify the technical office that has cognizance
over the technical portion of the solicitation, if
different than the office originating the solicitation.
Inspection Location
Place where the item was viewed or inspected
Use to identify the inspection location when it has to
be described as an address rather than a location such
as origin or destination.
Manufacturer of Goods
Use either when offering a substitute product to
identify the actual manufacturer of the item if not the
bidder or if a qualification requirement applied to the
solicited item to specify the manufacturer that has
already met the qualification requirement applied to
the solicited item.
Manufacturing Plant
Preparer
The firm, organization, or individual who determines
the tax liability from information supplied by the
taxpayer
Use to indicate the preparer of a Contract Data
Requirements List (CDRL).
Ship To
Use to indicate the address to which an item will be
shipped. For purposes of a quote, it may suffice to
simply transmit the ZIP code of the location rather
than the fill address.
V Service Performance Site
When services are contracted for, this describes the
organization for whom or location address at which
those services will be performed
Use to specify the location where a service is to be
performed.
Mark-for Party
The party for whom the needed material is intended
Use, when applicable, only when the inclusion of this
address is necessary to prepare a quote. Otherwise,
when applicable, include in the resulting purchase
order.
Mutually Defined
A request has been submitted to ASC X12 to add a
code for Organization Having Source Control. We
expect this code to be available for use in ASC X12
Version/Release 3050. In the meantime, use this code.
$X \quad$ AN 1/35
Free-form name
66 Identification Code Qualifier
X ID 1/2
Code designating the system/method of code structure used for Identification
Code (67)
1. Use, when applicable, to identify the named party.
2. A request has been submitted to $A S C X 12$ to add a code for contractor
establishment code. We expect this code be available for use in the ASC X12 Version/Release 3050.
3. While federal EDI uses the DUNS number, other numbers nay be required for a period of transition in order to cross reference existing data bases with new procurement actions.

1 D-U-N-S Number, Dun \& Bradstreet
Use of the DUNS or DUNS +4 is preferred over any other coded number to identify a named party.
9 D-U-N-S+4, D-U-N-S Number with Four Character Suffix
Use of the DUNS or DUNS +4 is preferred over any other coded number to identify a named party. Department of Defense Activity Address Code (DODAAC)
Use to indicate a DoD or Civilian agency Activity Address Code.
33 Commercial and Government Entity (CAGE) Use to identify vendors with CAGE codes.
A2 Military Assistance Program Address Code (MAPAC)
Contained in the Military Assistance Program Address Directory (MAPAD); represents the location of an entity
Use to identify a MAPAC address.
Facility Identification
Use to identify a vendor facility that cannot be identified by a CAGE code or DUNS number.

\title{
NIST Technical Publications
}

\section*{Periodical}

Journal of Research of the National Institute of Standards and Technology-Reports NIST research and development in those disciplines of the physical and engineering sciences in which the Institute is active. These include physics, chemistry, engineering, mathematics, and computer sciences. Papers cover a broad range of subjects, with major emphasis on measurement methodology and the basic technology underlying standardization. Also included from time to time are survey articles on topics closely related to the Institute's technical and scientific programs. Issued six times a year.

\section*{Nonperiodicals}

Monographs-Major contributions to the technical literature on various subjects related to the Institute's scientific and technical activities.
Handbooks--Recommended codes of engineering and industrial practice (including safety codes) developed in cooperation with interested industries, professional organizations, and regulatory bodies.
Special Publications--Include proceedings of conferences sponsored by NIST, NIST annual reports, and other special publications appropriate to this grouping such as wall charts, pocket cards, and bibliographies.
National Standard Reference Data Series-Provides quantitative data on the physical and chemical properties of materials, compiled from the world's literature and critically evaluated. Developed under a worldwide program coordinated by NIST under the authority of the National Standard Data Act (Public Law 90-396). NOTE: The Journal of Physical and Chemical Reference Data (JPCRD) is published bimonthly for NIST by the American Chemical Society (ACS) and the American Institute of Physics (AIP). Subscriptions, reprints, and supplements are available from ACS, 1155 Sixteenth St., NW, Washington, DC 20056.

Building Science Series-Disseminates technical information developed at the Institute on building materials, components, systems, and whole structures. The series presents research results, test methods, and performance criteria related to the structural and environmental functions and the durability and safety characteristics of building elements and systems.
Technical Notes-Studies or reports which are complete in themselves but restrictive in their treatment of a subject. Analogous to monographs but not so comprehensive in scope or definitive in treatment of the subject area. Often serve as a vehicle for final reports of work performed at NIST under the sponsorship of other government agencies.
Voluntary Product Standards-Developed under procedures published by the Department of Commerce in Part 10, Title 15, of the Code of Federal Regulations. The standards establish nationally recognized requirements for products, and provide all concerned interests with a basis for common understanding of the characteristics of the products. NIST administers this program in support of the efforts of private-sector standardizing organizations.
Order the following NIST publications-FIPS and NISTIRs-from the National Technical Information Service, Springfield, VA 22161.
Federal Information Processing Standards Publications (FIPS PUB)-Publications in this series collectively constitute the Federal Information Processing Standards Register. The Register serves as the official source of information in the Federal Government regarding standards issued by NIST pursuant to the Federal Property and Administrative Services Act of 1949 as amended, Public Law 89-306 (79 Stat. 1127), and as implemented by Executive Order 11717 ( 38 FR 12315, dated May 11, 1973) and Part 6 of Title 15 CFR (Code of Federal Regulations).
NIST Interagency Reports (NISTIR)-A special series of interim or final reports on work performed by NIST for outside sponsors (both government and nongovernment). In general, initial distribution is handled by the sponsor; public distribution is by the National Technical Information Service, Springfield, VA 22161, in paper copy or microfiche form.```
