Authority

This publication has been developed by NIST in accordance with its statutory responsibilities under the Federal Information Security Modernization Act (FISMA) of 2014, 44 U.S.C. § 3551 *et seq.*, Public Law (P.L.) 113-283. NIST is responsible for developing information security standards and guidelines, including minimum requirements for federal information systems, but such standards and guidelines shall not apply to national security systems without the express approval of appropriate federal officials exercising policy authority over such systems. This guideline is consistent with the requirements of the Office of Management and Budget (OMB) Circular A-130.

Nothing in this publication should be taken to contradict the standards and guidelines made mandatory and binding on federal agencies by the Secretary of Commerce under statutory authority. Nor should these guidelines be interpreted as altering or superseding the existing authorities of the Secretary of Commerce, Director of the OMB, or any other federal official. This publication may be used by nongovernmental organizations on a voluntary basis and is not subject to copyright in the United States. Attribution would, however, be appreciated by NIST.

National Institute of Standards and Technology Special Publication 800-87 Revision 2
Natl. Inst. Stand. Technol. Spec. Publ. 800-87 Revision 2, 105 pages (April 2018)
CODEN: NSPUE2

This publication is available free of charge from:
<https://doi.org/10.6028/NIST.SP.800-87r2>

Certain commercial entities, equipment, or materials may be identified in this document in order to describe an experimental procedure or concept adequately. Such identification is not intended to imply recommendation or endorsement by NIST, nor is it intended to imply that the entities, materials, or equipment are necessarily the best available for the purpose.

There may be references in this publication to other publications currently under development by NIST in accordance with its assigned statutory responsibilities. The information in this publication, including concepts and methodologies, may be used by federal agencies even before the completion of such companion publications. Thus, until each publication is completed, current requirements, guidelines, and procedures, where they exist, remain operative. For planning and transition purposes, Federal agencies may wish to closely follow the development of these new publications by NIST.

Organizations are encouraged to review all draft publications during public comment periods and provide feedback to NIST. Many NIST cybersecurity publications, other than the ones noted above, are available at <https://csrc.nist.gov/publications>.

Comments on this publication may be submitted to:

Reports on Computer Systems Technology

The Information Technology Laboratory (ITL) at the National Institute of Standards and Technology (NIST) promotes the U.S. economy and public welfare by providing technical leadership for the Nation's measurement and standards infrastructure. ITL develops tests, test methods, reference data, proof of concept implementations, and technical analyses to advance the development and productive use of information technology. ITL's responsibilities include the development of management, administrative, technical, and physical standards and guidelines for the cost-effective security and privacy of other than national security-related information in federal information systems. The Special Publication 800-series reports on ITL's research, guidelines, and outreach efforts in information system security, and its collaborative activities with industry, government, and academic organizations.

Abstract

This document provides the organizational codes for federal agencies to establish the Federal Agency Smart Credential Number (FASC-N) that is required to be included in the FIPS 201 Card Holder Unique Identifier. SP 800-87 is a companion document to FIPS 201.

Keywords

CHUID; Federal Agency Smart Credential Number (FASC-N); FIPS 201; HSPD-12; organizational codes; identity credential; PIV cards.

Executive Summary

The Homeland Security Presidential Directive HSPD-12 called for new standards to be adopted governing the interoperable use of identity credentials to allow physical and logical access to Federal government locations and systems. *Personal Identity Verification (PIV) for Federal Employees and Contractors*, (Federal Information Processing Standard 201 (FIPS 201)) was developed to establish standards for identity credentials. This document, Special Publication (SP) 800-87, provides the organizational codes necessary to establish the PIV Federal Agency Smart Credential Number (PIV FASC-N) that is required to be included in the FIPS 201 Card Holder Unique Identifier (CHUID) and is a companion document to FIPS 201.

1 Introduction

1.1 Purpose and Scope

Federal Information Processing Standard (FIPS) 201¹ was developed to establish standards for identity credentials for federal employees and federal contractors. This document provides the organizational codes for federal agencies to establish the Federal Agency Smart Credential Number (FASC-N) that is required to be included in the FIPS 201 Card Holder Unique Identifier. Special Publication (SP) 800-87 is a companion document to FIPS 201. All changes implemented in this publication are listed in [Appendix A](#).

1.2 Maintenance Organization

The maintenance organization for codes for the identification of federal and federally assisted organizations for the Personal Identity Verification (PIV) FASC-N is the Department of Commerce in coordination with the General Services Administration and the Departments of Homeland Security and Commerce. Federal departments and independent agencies are invited to assist in the maintenance of this publication by submitting copies of newly implemented tables of organization that affect any listing. Such changes should be submitted to the National Institute of Standards and Technology (NIST) via e-mail to piv_comments@nist.gov with "SP 800-87 Update Request " in the subject line.

The two leftmost characters of each code form a component data element which is identical with the two-digit numerical code used in the federal budgetary process to identify major federal organizations. This component, designated as the Treasury Agency Symbol (TAS), is maintained by the U.S. Department of the Treasury; and the National Archives and Records Administration legislatively owns the records.

1.3 Applicability

This document is targeted at federal agencies and implementers of PIV systems for the establishment of the PIV FASC-N organizational codes. This publication is not intended for the replacement of U.S. Department of the Treasury agency location and appropriation fund account codes.

1.4 Organizational Structure

This publication provides a four-character PIV FASC-N organizational code for each organization listed. The major set of categories used to distinguish groups of organizations in this publication is the following:

- Legislative Branch,
- Judicial Branch,
- Executive Office and Departments (and their Associated Organizations)
- Other Independent federal and Quasi-federal Organizations (and their Associated Organizations)

¹ The latest version of Federal Information Processing Standard (FIPS) 201 is FIPS 201-2, *Personal Identity Verification (PIV) of Federal Employees and Contractors*, National Institute of Standards and Technology, August 2013, 87pp, <https://doi.org/10.6028/NIST.FIPS.201-2>.

- Independent federal-State and Interstate Organizations
- International Organizations.

Organizational structure is described and encoded in this publication in a manner consistent with the budgetary structure of the U.S. Government. Consistency with the budgetary structure has been maintained in order to permit the adoption of the two-digit numerical code used in the budgetary process to identify most first-level, independent federal organizations. This coding system is maintained by the U.S. Department of the Treasury. Designated as the Treasury Agency Symbol (TAS), it serves as the two leftmost characters of the organization code used in this publication.

All first-level organizations in each of the above categories are listed in this publication. A first-level organization is not subsumed hierarchically under any other organization. Second-level organizations are included with the Executive Office, executive departments, and certain other major agencies. Third- and lower-level organizations are included only in the Department of Defense and in special situations in other departments. Second-, third-, and lower-level organizations are always subsumed hierarchically under a next-higher-level organization.

In this publication, an "independent" organization is defined as having both hierarchical independence and budgetary independence, i.e., it is first-level (hierarchical independence) and has a budget which is not subsumed by or connected in a subsidiary manner with the budget of another organization (budgetary independence). An "associated" organization is first-level, but has no budgetary independence. The five types of associated organizations are:

- Associated federal Organizations, which are federal agencies or their ancillary units such as advisory committees; they are often included as part of the independent organizations to which they are related
- Associated federal-State Organizations, which are associated organizations in which the federal Government and one or more States participate jointly
- Government-Sponsored Enterprises, which are so identified in a separate section of the Budget of the United States Government, Appendix (referred to as The Budget)
- Federally Aided Organizations, which are domestic and non-federal, and are identified in The Budget as receiving some form of financial support such as a direct payment, loan guarantee, line of credit, or stock purchase arrangement
- International Organizations, identified in The Budget or in the Department of State's annual report of United States Contributions to International Organizations as organizations in which the federal Government serves as a financial contributor.

A "quasi-federal" organization is an organization that is listed as "quasi-official" in the U.S. Government Manual and is also assigned its own unique TAS code by the U.S. Department of the Treasury. An "interstate" organization included in this publication is federally assisted but differs from a federal-State organization in that it involves no federal participation.

Associated organizations and organizations below the first level usually carry the same TAS as the independent, first-level organization with which they are connected. Organizations having the same TAS are distinguished from each other by the two rightmost characters of the identifier. These characters are alphanumeric, although numeric characters are being used at this time in most cases. The recommended system used for assignment of the two rightmost characters of the identifier is explained below in [Section 4: Special Information](#).

2 Specifications: Table of Organizations and Codes

2.1 Part A: Arrangement by Hierarchical and Budgetary Relationship

In this part, names of first-level organizations are presented immediately to the right of the assigned codes without an indentation.

Second-level organizations are listed immediately below the first-level organization to which they report and are indented further to the right. Second-level organizations which subdivide a first-level organization form a complete, non-duplicative set, i.e., each employee of the first-level organization can be assigned to one and only one second-level entry.

Third- and lower-level organizations are indented further to the right than their respective next-higher level entries, and they are listed immediately below the entry that they subdivide. Third- and lower-level entries, similarly, form a complete, non-duplicative set.

At any level for which entries are provided, some subdivisions may not be individually identified. Those divisions not specifically listed are included by implication, as in "Office of the Assistant Secretary for Health except National Centers."

Each domestic, associated organization is listed with the independent organization with which its financial or administrative support is connected. International organizations are listed in a separate section.

2.2 Part B: Arrangement by Alphanumeric Sequence of Assigned Codes

[Part B](#) is a listing of organizations and codes arranged by alphanumeric sequence of codes.

3 Qualifications

This document, Special Publication 800-87 (SP 800-87), provides the organizational codes for Federal Agencies to establish the Federal Agency Smart Credential Number (FASC-N) that is required to be included in the FIPS 201 Card Holder Unique Identifier (CHUID). Because FIPS 201 applies only to federal agencies, non-federal organizations were excluded from the requirements of this Special Publication.

4 Special Information

The coding structure in this publication is based on the establishment of four active classes of TAS codes. The assignments of the two rightmost characters of the identifier differ in each of the classes and are described below.

- Defense TAS Codes

The following TAS codes are used to identify component organizations of the Department of Defense:

- 17: Department of the Navy;
- 21: Department of the Army;
- 57: Department of the Air Force;
- 84: U.S. Soldiers' and Airmen's Home;
- 96: U.S. Corps of Engineers--(civil); and
- 97: Department of Defense as a whole and components, other than the military department, reporting to the Secretary of Defense.

Values of the two rightmost characters of the identifier for all component organizations of the Department of Defense (DoD) are received from the Directorate for Information Resources Management Systems, Office of the Assistant Secretary of Defense (Comptroller). DoD assigns their own codes, usually alphabetic (can be numeric).

- Joint-Use TAS Codes

Several non-Defense, independent organizations share certain TAS codes. These organizations are fully distinguished at the first level by the third and fourth characters of the identifier. The TAS codes in this class, and their applications, are:

- 00: Senate and House of Representatives;
- 09: Smaller Legislative Agencies;
- 10: Judicial Agencies;
- 46: Independent federal-State and Interstate Organizations (excepting Advisory Commission on Intergovernmental Relations);
- 48: Temporary Study Commissions;
- 76: Historical and Memorial Agencies; and
- 95: Other Independent Organizations Not Assigned Unique TAS Codes.

- TAS Code 11: Executive Office of the President/Funds Appropriated to the President

The Executive Office of the President is assigned identifier 1100, and agencies within the Office are assigned identifiers in the range of 1101 through 1130. The office of the Vice President is assigned 1160.

Agencies that come under the "Funds Appropriated to the President" (FAP) in the federal Budget also are assigned TAS code 11. Currently, two different ranges are used for the two rightmost characters for these FAP agencies. Agencies that are international in scope, such as the Multilateral Development Banks, are assigned alphabetic characters consistent with other international agencies. Other FAP agencies, such as the Peace Corps, are assigned numerics for the two rightmost characters. These currently range from 31 to 62.

For values of the two rightmost characters of the identifier for associated organizations using TAS code 11, see below under "Single-Use TAS Codes." This class of TAS codes includes all codes that are active (i.e., in current use) and not identified above in another class. As implied in the class name, an independent organization using a TAS code in this class does not share that TAS code with any other independent organization. Second-level, third-level, and associated organizations may be included in this class and will use the same TAS codes as their respective independent organizations.

For each TAS code in this class, the two rightmost characters of the identifier are recommended to be assigned as follows:

- 00: organization as a whole (always present);
- 01: office of the chief executive and any staff functions not separately identified;
- 02: office of the deputy chief executive;
- 03: office of the general counsel or equivalent;
- 04: office of the inspector general;
- 05: office of administration or management, if no "planning" or "policy" functions are included in the name;
- 06: office of policy, evaluation, or program analysis, including any "budget" functions not included in "administration" or "management";
- 07: office of Congressional and legislative affairs; may include public or intergovernmental affairs if not separately identified;
- 08: office of public affairs, if identified separately from Congressional and legislative affairs;
- 09: office of international affairs;
- 10 through 29: other staff offices;
- 30 through 59: programmatic or line organizations, and all of their separately identified, lower-level components;
- 60 through 69: Associated federal Organizations;
- 70 through 79: Associated federal-State Organizations;
- 80 through 89: Government-Sponsored Enterprises;
- 90 through 99: Federally Aided Organizations; and
- AA through ZZ: International Organizations.

For the assignment of the two rightmost characters to international organizations, groupings of such organizations have been established. The third character of the identifier is the same for each organization in a group. This permits recognition of an identifier as pertaining to a particular group. For example, inter-American organizations have the two rightmost characters of their identifiers in the range AA through AZ; international fisheries organizations are assigned the range FA through FZ, while United Nations and affiliated agencies are assigned the range UA through UZ. This procedure for assigning the two rightmost characters of the identifier is used for each international organization, regardless of the TAS code assigned to the organization.

If expansion of the coding structure is required due to saturation, the fourth or rightmost character of the identifier will be converted to an alphanumeric for staff, line, and domes associated organizations under Single-Use TAS Codes. Then, more identifiers for these types of organizations would be available. For example, in this expansion, the two rightmost characters of identifiers for line organizations under Single-Use TAS Codes could include code 2A through 5Z as well as 20 through 59, while the two rightmost characters for associated federal organizations could include codes 6A through 6Z as well as 60 through 69. This expansion could apply, in a similar fashion, to the coding structure for domestic organization under TAS code 11 or the Joint-Use TAS Codes.
